4. For the purposes of heading 9406, the expression "prefabricated buildings" means buildings which are finished in the factory or put up as elements, entered together, to be assembled on site, such as housing or worksite accommodation, offices, schools, shops, sheds, garages or similar buildings.

   Prefabricated buildings include “modular building units” of steel, normally presented in the size and shape of a standard shipping container, but substantially or completely pre-fitted internally. Such modular building units are normally designed to be assembled together to form permanent buildings.

Additional U.S. Note

1. For the purposes of subheading 9401.20.00, "seats of a kind used for motor vehicles" does not include child safety seats.

Statistical Notes

1. In heading 9401, stationary activity centers do not have castors or wheels.

2. For the purposes of statistical reporting number 9401.99.9030, mechanically collapsible sofa bed seat deck components are characterized by an articulating array of metal torsion hinges and struts that square-fold to transition from flat to erect and vice versa and are attached permanently to a controller frame consisting of a metal bar that acts as a bi-directional transit controller.

3. For the purposes of statistical reporting in this chapter, the term “plantation-harvested” means wood harvested from trees grown on a plantation. A plantation is an area of land where trees are established through deliberate planting and/or seeding and are generally harvested at maturity.

4. For the purposes of statistical reporting number 9403.20.0075, the term "boltless or press-fit steel shelving units prepackaged for sale" refers to steel shelving in which the steel vertical and horizontal supports lock together to form the frame for the shelving unit and are assembled primarily without the use of nuts and bolts or screws. Boltless steel shelving includes rivet shelving, welded frame shelving, slot and tab shelving, and punched rivet (quasi-rivet) shelving but does not include wall-mounted shelving or wire shelving units in which a wire deck and wire horizontal supports are integrated into a single piece.

5. For the purposes of statistical reporting number 9403.20.0078, "metal exchange lockers" are lockers with individual locking doors mounted on one master locking door to access multiple units used by commercial businesses, hospitals, police departments, condominiums, apartments, hotels, automobile dealerships, etc.

6. For the purposes of statistical reporting numbers 9404.90.1030, 9404.90.1060, 9404.90.2030 and 9404.90.2060, "bed pillows" are pillows used on a bed to support the head and neck while sleeping.

7. For purposes of heading 9406, the unit of quantity, m^2, refers to the floor area of the building when assembled.
