CHAPTER 87

VEHICLES OTHER THAN RAILWAY OR TRAMWAY ROLLING STOCK,
AND PARTS AND ACCESSORIES THEREOF

Notes

1. This chapter does not cover railway or tramway rolling stock designed solely for running on rails.

2. For the purposes of this chapter, "tractors" means vehicles constructed essentially for hauling or pushing another vehicle, appliance or load, whether or not they contain subsidiary provision for the transport, in connection with the main use of the tractor, of tools, seeds, fertilizers or other goods.

   Machines and working tools designed for fitting to tractors of heading 8701 as interchangeable equipment remain classified in their respective headings even if presented with the tractor, and whether or not mounted on it.

3. Motor chassis fitted with cabs fall in headings 8702 to 8704, and not in heading 8706.

4. Heading 8712 includes all children's bicycles. Other children's cycles fall in heading 9503.

Subheading Note

1. Subheading 8708.22.00 covers:

   (a) front windscreens (windshields), rear windows and other windows, framed; and

   (b) front windscreens (windshields), rear windows and other windows, whether or not framed, incorporating heating devices or other electrical or electronic devices, when suitable for use solely or principally with the motor vehicles of headings 8701 to 8705.

Additional U.S. Notes

1. Road tractors, trailers and semi-trailers remain separately classified in headings 8701 and 8716, respectively, even when entered together.

2. For the purposes of classifying bicycles under the provisions therefore in heading 8712, the diameter of each wheel is the diameter measured to the outer circumference of the tire which is mounted thereon or, if none is mounted thereon, of the usual tire for such wheel.

Statistical Notes

1. For the purposes of statistical reporting numbers in headings 8701 and 8703, report as “new” only those motor vehicles that have been produced or assembled but have not been sold to any person or entity other than a manufacturer, distributor or dealer. Report as “used” only those motor vehicles the equitable or legal title to which has been transferred via a first sale by a manufacturer, distributor or dealer to an ultimate purchaser.

2. For purposes of statistical reporting number 8707.10.0030, “offset steering” refers to the provision of a steering column that is not in the centerline of the chassis. The term “floorboard width of at least 114.3 cm but not more than 139.7 cm” refers to the width of the floorboard of a vehicle body measured at its widest point.
