(i) Except as provided in headings 9903.01.78–9903.01.83 and 9903.01.90, and in subdivisions (x)(ii) through (x)(xv) of this note, and other than products for personal use included in accompanied baggage of persons arriving in the United States, heading 9903.01.77 imposes an additional *ad valorem* rate of duty on imports of all products of Brazil. Notwithstanding U.S. note 1 to this subchapter, all products that are subject to the additional *ad valorem* rate of duty imposed by this heading shall also be subject to the general rates of duty imposed under subheadings in chapters 1 to 97 of the tariff schedule. Except as provided in subdivisions (x)(ii) through (x)(xv) of this note, all products that are subject to the additional *ad valorem* rate of duty imposed by this heading shall also be subject to any additional duty provided for in this subchapter or subchapter IV of chapter 99. Products that are eligible for special tariff treatment under general note 3(c)(i) to the tariff schedule, with the exception of products covered by the World Trade Organization Agreement on Trade in Civil Aircraft, or that are eligible for temporary duty exemptions or reductions under subchapter II to chapter 99, shall be subject to the additional *ad valorem* rate of duty imposed by this heading.

The additional duty imposed by this heading shall not apply to goods for which entry is properly claimed under a provision of chapter 98 of the tariff schedule pursuant to applicable regulations of U.S. Customs and Border Protection ("CBP"), and whenever CBP agrees that entry under such a provision is appropriate, except for goods entered under heading 9802.00.80; and subheadings 9802.00.40, 9802.00.50, and 9802.00.60. For subheadings 9802.00.40, 9802.00.50, and 9802.00.60, the additional duties apply to the value of repairs, alterations, or processing performed, as described in the applicable subheading. For heading 9802.00.80, the additional duties apply to the value of the article assembled abroad, less the cost or value of such products of the United States, as described.

Products that are provided for in heading 9903.01.77 shall continue to be subject to antidumping, countervailing, or other duties, taxes, fees, exactions and charges that apply to such products, as well as to the additional *ad valorem* rate of duty imposed by this heading.

(ii) Heading 9903.01.79 covers only products that are donations, by persons subject to the jurisdiction of the United States, of articles, such as food, clothing, and medicine, intended to be used to relieve human suffering, except to the extent that the President determines that such donations (A) would seriously impair his ability to deal with any national emergency declared under section 1701 of title 19 of the U.S. Code, (B) are in response to coercion against the proposed recipient or donor, or (C) would endanger Armed Forces of the United States which are engaged in hostilities or are in a situation where imminent involvement in hostilities is clearly indicated by the circumstances.

5. The following provisions have been suspended pursuant to executive action: subheadings 9903.04.05 and 9903.04.10, headings 9903.04.15 through 9903.04.55, inclusive, subheading 9903.41.25, and subheadings 9903.41.35 through 9903.41.45, inclusive.

6. Import quotas for upland cotton.--The provisions of this note apply beginning August 1, 1991, to imports of upland cotton as provided in subheadings 9903.52.00 through 9903.52.26.

(a) Special Upland Cotton Import Quota Based on Northern Europe Prices.--

(i) Whenever the Secretary of Agriculture determines and announces that for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one-and-three-thirty-seconds cotton, delivered to a definable and significant international market, as determined by the Secretary, exceeds the prevailing world market price, there shall immediately be in effect a special import quota. The quota shall be equal to 1 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available. The aggregate quantity of cotton entered into the United States during any marketing year under the special import quota established under this subdivision may not exceed the equivalent of 10 week's consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the 3 months immediately preceding the first special import quota established in any marketing year.

(ii) Application.--The quota shall apply to upland cotton purchased not later than 90 days after the effective date of the Secretary's announcement under clause(i) and entered into the United States not later than 180 days after such date.

(iii) Overlap.--A quota period may be established that overlaps any existing quota period if required by clause(i), except that a quota period may not be established under this paragraph if a quota period has been established under paragraph(b) of this note.

(iv) The Secretary of Agriculture shall inform the Secretary of the Treasury of the establishment of any special import quota under this paragraph and shall file a notice of such quota with the Federal Register.

(b) Upland Cotton Import Quota Based on Spot Market Prices.--

(i) Whenever the Secretary of Agriculture determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months, there shall immediately be in effect a limited global import quota equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available. An announcement under this clause shall be known as a Limited Global Cotton Import Quota Announcement. For purposes of this subdivision, a Limited Global Cotton Import Quota means a quantity of imports that is not subject to the over-quota tariff rate of a tariff-rate quota contained in chapter 52 of the tariff schedule.

(ii) Quantity if prior quota.--If a quota has been established under this paragraph during the preceding 12 months, the quantity of the quota next established under this paragraph shall be the smaller of 21 days of domestic mill consumption, calculated as set forth in clause (i), or the quantity required to increase the supply to 130 percent of the demand.

(iii) Definitions.--As used in clause (ii):

(A) Supply.--The term "supply" means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury--

(I) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the special quota is established; plus

(II) production of the current crop; plus

(III) imports to the latest date available during the marketing year.

(B) Demand.--The term "demand" means--

(I) the average seasonally adjusted annual rate of domestic mill consumption in the most recent 3 months for which data are available; plus

(II) the larger of--

(aa) average exports of upland cotton during the preceding 6 marketing years; or

(bb) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the special quota is established.

(iv) Quota entry period.--When a quota is established under this paragraph, cotton may be entered under the quota during the 90-day period beginning on the effective date of the Secretary of Agriculture's announcement of such quota.

(v) No overlap.--Notwithstanding clauses (i) through (iv), a quota period may not be established under this paragraph that overlaps an existing quota period established under this paragraph or a quota period established under paragraph (a) of this note.

(vi) The Secretary of Agriculture shall inform the Secretary of the Treasury of the establishment of any import quota under this paragraph and shall file a notice of such quota with the Federal Register.

Any quantity set forth in a notice issued by the United States Trade Representative for any subheading specified herein may be allocated among supplying countries and areas and shall thereby supersede any quantity or allocation that may have been announced under additional U.S. note 5 to chapter 17.

16. (a) Except as provided in headings 9903.82.01, 9903.85.67, and 9903.85.68, headings 9903.82.02–9903.82.26 provide the ordinary customs duty treatment of certain articles of aluminum, of steel, or of copper and certain derivative aluminum or steel articles as provided for in subdivision (c) of this note. These headings are mutually exclusive, such that an imported article will be subject to no more than one of these headings.

(b) For imported articles provided for in headings 9903.82.02–9903.82.26 that are eligible for special tariff treatment under any of the free trade agreements or preference programs listed in general note 3(c)(i) to the tariff schedule, the duties provided in these headings shall be collected in addition to any special rate of duty otherwise applicable under the appropriate tariff subheading. Goods for which entry is claimed under a provision of chapter 98 to the HTSUS and that are subject to the additional duties prescribed herein shall be eligible for and subject to the terms of such provision and applicable U.S. Customs and Border Protection (CBP) regulations, except that duties under subheading 9802.00.60 shall be assessed based upon the full value of the imported article. No claim for entry or for any duty exemption or reduction shall be allowed under a provision of chapter 99 to the HTSUS that may set forth a lower rate of duty or provide duty-free treatment, taking into account information supplied by CBP. All antidumping, countervailing or other duties and charges applicable to such goods shall continue to be imposed.

(c) Headings 9903.82.02–9903.82.26 apply to the full customs value of articles classifiable in the provisions of the HTSUS enumerated in the following lists. For articles classified in the listed provisions that are not in chapters 72, 73, 74 or 76 of the HTSUS, headings 9903.82.02, 9903.82.04–9903.82.17 and 9903.82.20–9903.82.26 only apply where the weight of the applicable metal is at least 15 percent of the weight of the imported article. The applicable metal is identified in the title of each of the lists below. If an article is classified in a provision that is present on multiple lists, use the aggregate weight of the listed metals. **[Compiler's note: List continues on subsequent pages. read numbers from left to right.]**

(i) Heading 9903.91.12 applies to intermodal chassis, subassemblies thereof, and parts thereof, of China, provided for in statistical reporting number 8716.39.0090 or in subheadings 8716.90.30 or 8716.90.50. For purposes of heading 9903.91.12, intermodal chassis, subassemblies thereof, and parts thereof are described as follows:

The articles consist of chassis and subassemblies thereof, whether finished or unfinished, whether assembled or unassembled, whether coated or uncoated, regardless of the number of axles, for carriage of containers, or other payloads (including self-supporting payloads) for road, marine and/or rail transport. Chassis are typically, but are not limited to, rectangular framed trailers with a suspension and axle system, wheels and tires, brakes, a lighting and electrical system, a coupling for towing behind a truck tractor, and a locking system or systems to secure the shipping container or containers to the chassis using twist-locks, slide pins or similar attachment devices to engage the corner fittings on the container or other payload.

The articles include, but are not limited to, the following subassemblies:

(a) Chassis frames, or sections of chassis frames, including kingpin assemblies, bolsters consisting of transverse beams with locking or support mechanisms, goosenecks, drop assemblies, extension mechanisms and/ or rear impact guards;

(b) Running gear assemblies or axle assemblies for connection to the chassis frame, whether fixed in nature or capable of sliding fore and aft or lifting up and lowering down, which may or may not include suspension(s) (mechanical or pneumatic), wheel end components, slack adjusters, axles, brake chambers, locking pins, and tires and wheels;

(c) Landing gear assemblies, for connection to the chassis frame, capable of supporting the chassis when it is not engaged to a tractor; and

(d) Assemblies that connect to the chassis frame or a section of the chassis frame, such as, but not limited to, pintle hooks or B-trains (which include a fifth wheel), which are capable of connecting a chassis to a converter dolly or another chassis. Importation of any of these subassemblies, whether assembled or unassembled, constitutes an unfinished chassis for purposes of this note.

The articles also include chassis, whether finished or unfinished, entered with or for further assembly with components such as, but not limited to: Hub and drum assemblies, brake assemblies (either drum or disc), axles, brake chambers, suspensions and suspension components, wheel end components, landing gear legs, spoke or disc wheels, tires, brake control systems, electrical harnesses and lighting systems.

(ii) Heading 9903.91.13 applies to articles of China provided for in statistical reporting number 8716.39.0090, or subheadings 8716.90.30 or 8716.90.50, other than intermodal chassis, subassemblies thereof, and parts thereof, of China, provided for in statistical reporting number 8716.39.0090 or in subheadings 8716.90.30 or 8716.90.50, which are subject to the additional duties provided for in heading 9903.91.12.

(l)

(i) Heading 9903.91.14 applies to ship-to-shore gantry cranes, configured as a high- or low-profile steel superstructure and designed to unload intermodal containers from vessels with coupling devices for containers, including spreaders or twist-locks, provided for in subheading 8426.19.00, that are: (1) products of China; (2) products of countries other than China that contain components, assemblies or subassemblies, of China, as specified in subdivision (l)(ii) of this note; or (3) products that are manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity.

Heading 9903.91.14 shall not apply to entries under headings 9903.91.09 (as long as it is operative), 9903.91.15 or 9903.91.16. Notwithstanding U.S. note 1 to this subchapter, products of China that are subject to the additional duties imposed by heading 9903.91.14 shall also be subject to the additional duties imposed by heading 9903.92.10.

(ii) A ship-to-shore gantry crane of a country other than China that contains one or more of the following components, assemblies or subassemblies that are products of China shall be considered to be a ship-to-shore gantry crane of China for purposes of heading 9903.91.14:

(a) the boom;

(b) the trolley;

(c) the spreader;

(d) the cabin;

(e) the legs;

(f) the cable reel;

(g) the power supply;

(h) the bogie set and wheels; and

(i) any information technology equipment used to operate or control the crane.

(iii) A ship-to-shore gantry crane that is manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity shall be considered to be a ship-to-shore gantry crane of China for purposes of heading 9903.91.14.

(iv) For purposes of heading 9903.91.15, by claiming this heading, the importer attests that the ship-to-shore gantry cranes: (1) are not products of China; (2) are not manufactured, assembled, or made using components, assemblies or subassemblies that are products of China, as defined in subdivision (l)(ii) of this note; and (3) are not manufactured by a company or other entity that is owned or controlled by a Chinese person or legal entity, as defined in subdivision (l)(v) of this note.

(v) For purposes of headings 9903.91.14 and 9903.91.15:

(5) An entity is “subject to the ownership, control, or direction of” another entity if:

(A) 25 percent or more of the entity’s board seats, voting rights, or equity interest are cumulatively held by that other entity, whether directly or indirectly via one or more intermediate entities; or

U.S. Notes (con.)

(B) the entity has entered into a licensing arrangement or other contract with another entity (a contractor) that entitles that other entity to exercise effective control over the manufacturing or assembly (collectively, "production") of a ship-to-shore gantry crane, its components, assemblies, subassemblies, or other materials that would be attributed to the entity.

(b) "The Government of the People's Republic of China" means:

(1) A national or subnational government of the People's Republic of China;

(2) An agency or instrumentality of a national or subnational government of the People's Republic of China;

(3) an immediate family member (spouse, parent, sibling, child, or a spouse's parent and sibling) of any individual described in (v)(c)(1) or (v)(c)(2).

In order to be considered "senior," an official should be or have been in a position of substantial authority over policy, operations, or the use of government-owned resources.

(1) If a "parent" entity that qualifies under subdivisions (v)(a)(1)–(3) directly holds 50 percent or more of a "subsidiary" entity's board seats, voting rights, or equity interest, then the parent and subsidiary are treated as equivalent in the evaluation of control, as if the subsidiary were an extension of the parent. As such, any holdings of the subsidiary are fully attributed to the parent.

(2) If a "parent" entity that qualifies under subdivisions (v)(a)(1)–(3) directly holds less than 50 percent of a "subsidiary" entity's board seats, voting rights, or equity interest, then indirect ownership is attributed proportionately.

(e) For purposes of determining whether an entity has effective control, an entity that qualifies under subdivisions (v)(a)(1)–(3) that has a contractual relationship to determine the quantity or timing of production; to determine which entities may purchase or use the output of production; to restrict access to the site of production to the contractor's own personnel; or the exclusive right to maintain, repair, or operate equipment that is critical to production, is deemed to have effective control over an entity.

U.S. Notes (con.)

(d) Heading 9903.74.03 applies to medium- and heavy-duty vehicles described in this subdivision, upon approval from the Secretary of Commerce. For any medium- and heavy-duty vehicle that is classified in one of the subheadings of the HTSUS listed in subdivision (b) of this note and eligible for special tariff treatment under the United States-Mexico-Canada Agreement (USMCA), importers of such vehicles may submit documentation to the Secretary of Commerce identifying the amount of U.S. content in each vehicle imported into the United States. "U.S. content" refers to the value of the medium- or heavy-duty vehicle attributable to U.S.-based activity supporting domestic production, as determined by the Secretary of Commerce. Thereafter, the Secretary may approve imports of such vehicles to be eligible to apply the *ad valorem* rates of duty exclusively to the value of the non-U.S. content of the vehicle. The non-U.S. content of the vehicle shall be calculated by subtracting the value of the U.S. content in a vehicle from the total value of the vehicle.

Any importer entering a medium- and heavy-duty vehicle covered by this note under heading 9903.74.03 shall provide any information that may be required, and in such form, as is deemed necessary by CBP in order to permit the administration of this heading.

Goods for which entry is claimed under a provision of chapter 98 and which are subject to the additional duties prescribed herein shall be eligible for and subject to the terms of such provision and applicable CBP regulations, except that duties under subheading 9802.00.60 shall be assessed based upon the full value of the imported article. No claim for entry or for any duty exemption or reduction shall be allowed for the vehicles enumerated in subdivision (b) of this note under a provision of chapter 99 that may set forth a lower rate of duty or provide duty-free treatment, taking into account information supplied by CBP, but any additional duty prescribed in any provision of this subchapter or subchapter IV of chapter 99 shall be imposed in addition to the duty in heading 9903.74.03. All antidumping, countervailing, or other duties and charges applicable to such goods shall continue to be imposed in addition to the duty in heading 9903.74.03.

(e) Heading 9903.74.05 applies to entries of articles that are classifiable under provisions of the HTSUS enumerated in subdivision (b) of this note but that are not medium- and heavy-duty vehicles.

(f) Heading 9903.74.06 applies to the U.S. content of medium- and heavy-duty vehicles described in subdivision (d) of this note, upon approval from the Secretary of Commerce.

(g) Heading 9903.74.07 applies to all entries of medium- and heavy-duty vehicles from all countries classifiable in the provisions enumerated in subdivisions (b) or (c) of this note that were manufactured in a year at least 25 years prior to the year of the date of entry.

(h) Except as provided for in headings 9903.74.10 and 9903.74.11, headings 9903.74.08 and 9903.74.09 provide the ordinary customs duty treatment applicable to all entries of medium- and heavy- duty vehicle parts from all countries classifiable in the provisions enumerated in subdivision (i) or that meet the requirements of subdivision (j) of this note.

Except as provided for in subdivision (k) to this note, for any such products that are eligible for special tariff treatment under any of the free trade agreements or preference programs listed in general note 3(c)(i) to the tariff schedule, the duties provided in headings 9903.74.08 and 9903.74.09 shall be collected in addition to any special rate of duty otherwise applicable under the appropriate tariff subheading. Goods for which entry is claimed under a provision of chapter 98 and that are subject to the additional duties prescribed herein shall be eligible for and subject to the terms of such provision and applicable CBP regulations, except that duties under subheading 9802.00.60 shall be assessed based upon the full value of the imported article. No claim for entry or for any duty exemption or reduction shall be allowed for the medium- and heavy-duty vehicle parts in subdivisions (i) or (j) of this note under a provision of chapter 99 that may set forth a lower rate of duty or provide duty-free treatment, taking into account information supplied by CBP, but any additional duty prescribed in any provision of this subchapter or subchapter IV of chapter 99 shall be imposed in addition to the duty in headings 9903.74.08 and 9903.74.09.

All antidumping, countervailing, or other duties and charges applicable to such goods shall continue to be imposed in addition to the duty in headings 9903.74.08 and 9903.74.09, except that entries of medium- and heavy-duty vehicle parts shall not be subject to:

(1) the additional duties imposed on entries of articles of aluminum, of steel, or of copper or derivative aluminum or steel articles provided for in headings 9903.82.02 and 9903.82.04–9903.82.26;

(i) articles classifiable in HTSUS chapters 72, 73 or 76;

(ii) articles classifiable in the provisions of subdivision (i) of this note; or

(iii) articles classifiable in the provisions of subdivision (g) of U.S. note 33 to this subchapter.

(k) Heading 9903.74.10 applies to all entries of articles classifiable under provisions of the HTSUS enumerated in subdivision (i) of this note or meeting the requirements of subdivision (j) of this note that qualify for preferential tariff treatment under the United States-Mexico-Canada Agreement (USMCA), other than medium- and heavy-duty vehicle knock-down kits or parts compilations.

39.

(a) Except as provided for in headings 9903.79.02–9903.79.09, heading 9903.79.01 provides the ordinary customs duty treatment of semiconductor articles of all countries as described in subdivision (b) of the note.

For any such products that are eligible for special tariff treatment under any of the free trade agreements or preference programs listed in general note 3(c)(i) to the tariff schedule, the duties provided in heading 9903.79.01 shall be collected in addition to any special rate of duty otherwise applicable under the appropriate tariff subheading. Goods for which entry is claimed under a provision of chapter 98 and that are subject to the additional duties prescribed herein shall be eligible for and subject to the terms of such provision and applicable U.S. Customs and Border Protection (CBP) regulations, except that duties under subheading 9802.00.60 shall be assessed based upon the full value of the imported article. No claim for entry or for any duty exemption or reduction shall be allowed for semiconductor articles enumerated in subdivision (b) of this note under a provision of chapter 99 that may set forth a lower rate of duty or provide duty-free treatment, taking into account information supplied by CBP, but any additional duty prescribed in any provision of this subchapter or subchapter IV of chapter 99 shall be imposed in addition to the duties in heading 9903.79.01.

All antidumping, countervailing, or other duties and charges applicable to such goods shall continue to be imposed in addition to the duties in heading 9903.79.01, except that such articles shall not be subject to:

(3) the additional duties imposed on entries of medium- and heavy-duty vehicles under headings 9903.74.01, 9903.74.02 and 9903.74.03;

(4) the additional duties imposed on entries of parts of medium- and heavy-duty vehicles under headings 9903.74.08 and 9903.74.09;

(5) the additional duties imposed on entries of articles of aluminum, of steel, or of copper or derivative aluminum or steel articles provided for in headings 9903.82.02 and 9903.82.04–9903.82.26;

(6) the additional duties imposed on entries of articles the product of Canada under heading 9903.01.10;

(7) the additional duties imposed on entries of articles the product of Mexico under heading 9903.01.01; and

(8) the additional duties imposed on entries of articles under headings 9903.01.24–9903.01.76 and 9903.02.01–9903.02.71.

(b) For the purposes of this note, “semiconductor articles” refers to imported products meeting certain technical parameters and that are classifiable in the provisions of the HTSUS enumerated in this subdivision:

8471.50
8471.80
8473.30

To be included within the definition of semiconductor articles, the imported products must be a logic integrated circuit, or an article that contains a logic integrated circuit, that meets the technical parameters of having:

(1) a total processing performance greater than 14,000 and less than 17,500, and a total DRAM bandwidth greater than 4,500 GB/s and less than 5,000 GB/s; or

(2) a total processing performance greater than 20,800 and less than 21,100, and total DRAM bandwidth greater than 5,800 GB/s and less than 6,200 GB/s.

For the purposes of this note, total processing performance (TPP) is 2 × “MacTOPS” × “bit length of the operation,” aggregated over all processing units on the integrated circuit. “MacTOPS” is the theoretical peak number of Tera

(10^{12}) operations per second for multiply-accumulate computation (D = A × B + C). The 2 in the TPP formula is based on the industry convention of counting one multiply-accumulate computation (D = A × B + C) as two operations for purpose of product datasheets. Therefore, 2 × "MacTOPS" may correspond to the reported TOPS or FLOPS on a product datasheet. The "bit length of the operation" for a multiply-accumulate computation is the largest bit-length of the inputs to the multiply operation. The TPP for the imported product is determined by aggregating the TPP for each processing unit on the integrated circuit: TPP = TPP1 + TPP2 + … + TPPn (where n is the number of processing units on the integrated circuit). The rate of "MacTOPS" is to be calculated at its maximum value theoretically possible. The rate of "MacTOPS" is assumed to be the highest value the manufacturer claims in annual or brochure for the integrated circuit. For example, a "TPP" threshold of 4800 can be met with 600 tera integer operations (or 2 × 300 "MacTOPS") at 8 bits or 300 tera FLOPS (or 2 × 150 "MacTOPS") at 16 bits. If the integrated circuit is designed for MAC computation with multiple bit lengths that achieve different "TPP" values, the highest "TPP" value should be used. For integrated circuits that provide processing of both sparse and dense matrices, the "TPP" values are the values for processing of dense matrices (e.g., without sparsity).

For the purposes of this note, "total DRAM bandwidth" refers to the aggregate memory bandwidth in gigabytes per second between the integrated circuit (IC) and dynamic random access memory (DRAM) ICs, including copackaged DRAM ICs and non-copackaged DRAM ICs. Copackaged DRAM ICs include, for example, high bandwidth memory (HBM). Non-copackaged DRAM ICs include, for example, graphics double data rate (GDDR) ICs. "Total DRAM bandwidth" does not include bandwidth from DRAM ICs accessed remotely over an interconnect medium.

(c) Heading 9903.79.02 applies to entries of articles that are classifiable under provisions of the HTSUS enumerated in subdivision (b) of this note but that do not meet the technical parameters specified in subdivision (b) of this note.

(d) Certain semiconductor articles that would otherwise meet the requirements of subdivision (b) of this note are excluded from the additional rate of duty pursuant to heading 9903.79.01. Instead, such semiconductor articles are subject to the following headings:

(i) Heading 9903.79.03 applies to semiconductor articles for use in U.S. data centers;

(ii) Heading 9903.79.04 applies to semiconductor articles for repairs or replacements performed in the United States;

(iii) Heading 9903.79.05 applies to semiconductor articles for research and development in the United States involving these chips;

(iv) Heading 9903.79.06 applies to semiconductor articles for use by startups in the United States;

(v) Heading 9903.79.07 applies to semiconductor articles for use in non-data center consumer electronics applications in the United States, including gaming, personal computing, professional visualization, workstation applications, and automotive applications;

(vi) Heading 9903.79.08 applies to semiconductor articles for use in non-data center civil industrial applications in the United States, including factory robotics and industrial machinery; and

(vii) Heading 9903.79.09 applies to semiconductor articles for use in United States public sector applications.

For the purposes of this note, a "U.S. data center" refers to a facility that requires greater than 100 megawatts (MW) of new load dedicated to AI inference, training, simulation, or synthetic data generation.

For the purposes of this note, "research and development" is defined as any activity that is (a) a systematic, intensive study directed toward greater knowledge or understanding of the subject studied; (b) a systematic study directed specifically toward applying new knowledge to meet a recognized need; or (c) a systematic application of knowledge toward the production of useful materials, devices, services or methods, and includes design, development and improvement of prototypes and new processes to meet specific requirements.

For the purposes of this note, a "startup" is an "emerging growth company," as defined at 15 U.S.C. § 77b(a)(19).

40.

(a) Headings 9903.04.60–9903.04.70 provide the customs duty treatment of imported articles classifiable in one of the provisions of the HTSUS enumerated in subdivision (c) of this note.

These headings are mutually exclusive, such that an imported article will be subject to no more than one of these headings. Pharmaceutical articles, as defined in subdivisions (c)(i)–(iii) of this note, are subject to heading 9903.04.60 unless another of these headings applies.

U.S. Notes (con.)

(b) For imported articles subject to headings 9903.04.60–9903.04.68 that are eligible for special tariff treatment under any of the free trade agreements or preference programs listed in general note 3(c)(i) to the tariff schedule, the duties provided in these headings shall be collected in addition to any special rate of duty otherwise applicable under the appropriate tariff subheading. Goods for which entry is claimed under a provision of chapter 98 of the HTSUS and which are subject to the additional duties prescribed herein shall be eligible for and subject to the terms of such provision and applicable U.S. Customs and Border Protection ("CBP") regulations. No claim for entry or for any duty exemption or reduction shall be allowed under a provision of chapter 99 of the HTSUS that may set forth a lower rate of duty or provide duty-free treatment, taking into account information supplied by CBP.

All antidumping, countervailing, or other duties and charges applicable to such goods shall continue to be imposed.

For the purposes of this note:

(i) "Pharmaceutical articles" refers to imported articles classifiable in the provisions enumerated in this subdivision that are finished pharmaceutical products or that are active pharmaceutical ingredients (including key starting materials for active pharmaceutical ingredients) classifiable in the provisions enumerated in this subdivision used to make finished pharmaceutical products. Inactive ingredients and excipients are not pharmaceutical articles.

(ii) "Patented pharmaceutical articles" are pharmaceutical articles that are subject to a valid, unexpired U.S. patent and are listed in the U.S. Food and Drug Administration's ("FDA") Approved Drug Products with Therapeutic Equivalence Evaluations ("Orange Book") or in the FDA's Lists of Licensed Biological Products ("Purple Book"); and ingredients (active pharmaceutical ingredients and key starting materials) for such articles.

(iii) "Generic pharmaceutical articles" are FDA-approved pharmaceutical articles, and associated ingredients, that are not subject to a valid, unexpired U.S. patent and are off exclusivity. A generic pharmaceutical article is an active pharmaceutical ingredient or any component in a finished dosage form product that is used in a drug product or biosimilar biological product approved pursuant to a qualifying application; or a drug product or biosimilar biological product approved or licensed pursuant to a qualifying application; or an unpatented animal health product. U.S. Notes (con.)

(a) Headings 9903.45.30 and 9903.45.31 establish temporary modifications applicable to entries of quartz surface products. For the purposes of this note, the term quartz surface products ("QSP") means slabs and other surfaces created from a mixture of materials that includes predominately silica (*e.g.,* quartz, quartz powder, cristobalite, glass powder) as well as a resin binder (*e.g.*, an unsaturated polyester). The incorporation of other materials, including, but not limited to, pigments, cement, or other additives does not remove the merchandise from the scope of this note. However, the scope only includes products where the silica content is greater than any other single material, by actual weight. QSP is typically sold as rectangular slabs with a total surface area of approximately 45 to 60 square feet and a nominal thickness of one, two, or three centimeters. However, the scope includes surface products of all other sizes, thicknesses, and shapes. In addition to slabs, the scope includes, but is not limited to, other surfaces such as countertops, backsplashes, vanity tops, bar tops, work tops, tabletops, flooring, wall facing, shower surrounds, fireplace surrounds, mantels, and tiles. QSP may be polished or unpolished, cut or uncut, fabricated or not fabricated, cured or uncured, edged or not edged, finished or unfinished, thermoformed or not thermoformed, packaged or unpackaged, and may have any type of surface finish. In addition, QSP is covered by the scope whether or not it is imported attached to, or in conjunction with, non-subject merchandise such as sinks, sink bowls, vanities, cabinets, and furniture. If QSP is imported attached to, or in conjunction with, such non-subject merchandise, only the QSP is covered by the scope.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise fabricated in a third country, including by cutting, polishing, curing, edging, thermoforming, attaching to, or packaging with another product, or any other finishing, packaging or fabrication that would not otherwise remove the merchandise from the scope if performed in the country of manufacture of the QSP. The scope does not cover quarried stone surface products, such as granite, marble, soapstone or quartzite.

The scope covers imported products provided for under HTSUS subheadings 6810.99.0020, 6810.99.0040, and 7020.00.6000.

(b) Imported goods provided for under headings 9903.45.30 and 9903.45.31 shall be subject to duties as provided herein, and such duties shall be cumulative and imposed in addition to the rate of duty established for any such goods in chapters 68 or 70 of the tariff schedule. All antidumping, countervailing or other duties and charges applicable to such goods shall continue to be imposed.

(a) Except as provided in headings 9903.05.85–9903.06.21 and in subdivisions (b) through (k) of this note, and other than products for personal use included in accompanied baggage of persons arriving in the United States, headings 9903.05.20–9903.05.84 impose additional *ad valorem* rates of duty on imports of all products of the countries provided for in these headings. Notwithstanding U.S. note 1 to this subchapter, all products that are subject to the additional *ad valorem* rates of duty imposed by these headings shall also be subject to the general rates of duty imposed under subheadings in chapters 1 to 97 of the tariff schedule. Except as provided in subdivisions (b) through (k) of this note, all products that are subject to the additional *ad valorem* rates of duty imposed by headings 9903.05.20–9903.05.84 shall also be subject to any additional duty provided for in this subchapter or in subchapter IV of chapter 99. Products that are eligible for special tariff treatment under general note 3(c)(i) to the tariff schedule, or that are eligible for temporary duty exemptions or reductions under subchapter II to chapter 99, shall be subject to the additional *ad valorem* rates of duty imposed by headings 9903.05.20–9903.05.84, except as otherwise provided in this note.

The additional duties imposed by headings 9903.05.20–9903.05.84 shall not apply to goods for which entry is properly claimed under a provision of chapter 98 of the tariff schedule pursuant to applicable regulations of U.S. Customs and Border Protection ("CBP"), and whenever CBP agrees that entry under such a provision is appropriate, except for goods entered under subheadings 9802.00.40, 9802.00.50 or 9802.00.60 or heading 9802.00.80. U.S. Notes (con.)

(k) As provided in headings 9903.05.38, 9903.05.39, 9903.05.48, 9903.05.49, 9903.05.70, 9903.05.71 and 9903.05.73–9903.05.76, for any good of a member state of the European Union, Japan, South Korea, Switzerland or Taiwan subject to a specific or compound rate of duty under column 1-General, the *ad valorem* equivalent rate of duty of such good shall be determined by dividing the amount of duty payable under column 1-General by the customs value of the good. For example, if a good were subject to a specific duty of 50 cents per kilogram, and one kilogram of the good were entered with a customs value of $10, then the *ad valorem* equivalent rate of duty would be obtained by dividing 50 cents by $10, yielding 5 percent. For any good of South Korea for which a specific or compound rate of duty under column 1-Special is properly claimed, the *ad valorem* equivalent rate of duty shall be determined in the same manner.

For headings 9903.05.39 and 9903.05.76, articles for which the applicable column 1 duty rate is less than 10 percent, the sum of the column 1 duty rate and the additional *ad valorem* rate of duty is 10 percent *ad valorem*.

For headings 9903.05.49, 9903.05.71 and 9903.05.74, articles for which the applicable column 1 duty rate is less than 12.5 percent, the sum of the column 1 duty rate and the additional *ad valorem* rate of duty is 12.5 percent *ad valorem*.
