(iii) Packaging and packing materials and containers for retail sale and shipment shall be disregarded in determining whether a good qualifies as an originating good, except to the extent that the value of such packaging and packing materials and containers have been included in meeting the requirements set forth in subdivision (b)(ii) of this note.

(iv) Definitions. For the purposes of this note:

(A) The term “direct costs of processing operations,” with respect to a good, includes, to the extent they are includable in the appraised value of the good when imported into Morocco or the United States, as the case may be, the following:

- (1) all actual labor costs involved in the growth, production or manufacture of the good, including fringe benefits, on-the-job training and the costs of engineering, supervisory, quality control and similar personnel;
- (2) tools, dies, molds and other indirect materials, and depreciation on machinery and equipment that are allocable to the good;
- (3) research, development, design, engineering and blueprint costs, to the extent that they are allocable to the good;
- (4) costs of inspecting and testing the good; and
- (5) costs of packaging the good for export to the territory of the other country.

The term “direct costs of processing operations” does not include costs that are not directly attributable to a good or are not costs of growth, production or manufacture of the good, such as profit and such as general expenses of doing business that are either not allocable to the good or are not related to the growth, production or manufacture of the good, such as administrative salaries, casualty and liability insurance, advertising and sales staff salaries, commission or expenses.

(B) The term “material” means a good, including a part or ingredient, that is used in the growth, production or manufacture of another good that is a new or different article of commerce that has been grown, produced or manufactured in Morocco, the United States or both; and

(C) The term “material produced in the territory of Morocco or of the United States, or both” means a good that is either wholly the growth, product or manufacture of Morocco, the United States, or both, or a new or different article of commerce that has been grown, produced or manufactured in the territory of Morocco or of the United States, or both.

(D) The term “new or different article of commerce” means, except as provided in this subdivision, a good that--

- (1) has been substantially transformed from a good or material that is not wholly the growth, product or manufacture of Morocco, the United States, or both; and
- (2) has a new name, character or use distinct from the good or material from which it was transformed,

but a good shall not be considered a new or different article of commerce by virtue of having undergone simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good.

(E) The term “simple combining or packaging operations” means operations such as adding batteries to electronic devices, fitting together a small number of components by bolting, gluing or soldering, or packing or repacking components together.

(F) The term “recovered goods” means materials in the form of individual parts that result from--

- (1) the complete disassembly of used goods into individual parts; and

- (1) is entirely or partially comprised of recovered goods;
 - (2) has a similar life expectancy to, and meets the same performance standards as, a like good that is new; and
 - (3) enjoys a factory warranty similar to that of a like good that is new.
- (H) The term “substantially transformed” means, with respect to a good or a material, changed as the result of a manufacturing or processing operation so that--
- (1) (aa) the good or material is converted from a good that has multiple uses into a good or material that has limited uses;
 - (bb) the physical properties of the good or material are changed to a significant extent; or
 - (cc) the operation undergone by the good or material is complex by reason of the number of processes and materials involved and the time and level of skill required to perform those processes; and
- (2) the good or material loses its separate identity in the manufacturing or processing operation.
- (v) A good shall not be considered to be imported directly into the territory of the United States if, after exportation from the territory of Morocco or of the United States, the good undergoes production, manufacturing or any other operation outside the territory of Morocco or of the United States, other than unloading, reloading or any other operation necessary to preserve the good in good condition or to transport the good to the territory of Morocco or of the United States.
- (e) Textile and apparel articles.
- (i) Except as provided in subdivision (ii) below, a textile or apparel good that is not an originating good under the terms of this note, because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in subdivision (h) of this note, shall be considered to be an originating good if the total weight of all such fibers or yarns in that component is not more than seven percent of the total weight of that component. Notwithstanding the preceding sentence, a textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of Morocco or of the United States.
 - (ii) Notwithstanding the rules set forth in subdivision (h) of this note, textile and apparel goods classifiable as goods put up in sets for retail sale as provided for in general rule of interpretation 3 to the tariff schedule shall not be considered to be originating goods unless each of the goods in the set is an originating good or the total value of the nonoriginating goods in the set does not exceed ten percent of the value of the set determined for purposes of assessing customs duties.
 - (iii) For purposes of this note, in the case of a textile or apparel good that is a yarn, fabric or group of fibers, the term “component of the good that determines the tariff classification of the good” means all of the fibers in the yarn, fabric or group of fibers.
- (f) Indirect materials.
- Indirect materials shall be disregarded in determining whether a good qualifies as an originating good, except that the cost of such indirect materials may be included in meeting the requirements of subdivision (b)(ii) of this note. An “indirect material” means a good used in the growth, production, manufacture, testing or inspection of a good but not physically incorporated into the good, or a good used in the maintenance of buildings or the operation of equipment associated with the growth, production or manufacture of a good, including--

 - (ii) tools, dies and molds;
 - (iii) spare parts and materials used in the maintenance of equipment or buildings;

 - (vi) equipment, devices and supplies used for testing or inspecting the good;
 - (vii) catalysts and solvents; and
 - (viii) any other goods that are not incorporated into the good but the use of which in the growth, production or manufacture of the good can reasonably be demonstrated to be a part of that growth, production or manufacture.
- (g) Interpretation of rules of origin.
- (i) For purposes of subdivision (h) of this note, a good is an originating good if--
 - (A) each of the nonoriginating materials used in the production of the good undergoes an applicable change in tariff classification specified in such subdivision (h) as a result of production occurring entirely in the territory of Morocco or of the United States, or both, or the good otherwise satisfies the applicable requirements of such subdivision where a change in tariff classification is not specified; and
 - (B) the good satisfies any other applicable requirements of this note.
 - (ii) For purposes of interpreting the rules of origin set forth in subdivision (h) of this note--
 - (A) the specific rule, or specific set of rules, that applies to a particular heading or subheading is set out immediately adjacent to the heading or subheading;

 - (C) a requirement of a change in tariff classification applies only to nonoriginating materials;
 - (D) a reference to a "chapter" is to a chapter of the tariff schedule; a reference to a "heading" is to a provision whose article description is not indented and which is designated by 4 digits, whether or not followed by subsequent zeroes; and a reference to a "subheading" is to a provision whose article description is indented and which is designated by 6 digits, whether or not followed by subsequent zeroes; and
 - (E) for purposes of textile and apparel goods, a good is considered to be "wholly" of a material if the good is entirely made of the named material.
- (h) Product-specific rules of origin.
- (i) With respect to goods not described in subdivision (b)(i) of this note, when such goods fall in the enumerated provisions set forth herein and the importer claims the treatment provided under this note with respect to such goods, the rules in this subdivision apply in lieu of the provisions of subdivision (b)(ii) of this note.
 - (ii) Certain dairy and dairy-containing products.

A good containing over 10 percent by weight of cow's milk solids that is classified in chapter 4 or heading 1901, 2105, 2106 or 2202 must be made from originating cow's milk, but the use of nonoriginating sheep's or goat's milk in a good classified in chapter 4 or heading 1901, 2105, 2106 or 2202 shall not render the good nonoriginating.
 - (iii) Products provided for in section II of the tariff schedule. [NOT UPDATED FOR PRES.PROC. 8097 or 8771]
- Section rule:** An agricultural or horticultural good grown in the territory of Morocco or of the United States shall be treated as an originating good even if grown from a nonoriginating seed, bulb, rootstock, cutting, slip, graft, shoot, bud or other live part of a plant.
