Annotated for Statistical Reporting Purposes

## SUBCHAPTER XX

### MODIFICATIONS ESTABLISHED PURSUANT TO THE UNITED STATES-KOREA TRADE PROMOTION AGREEMENT

XXII  
99-XX-1

#### U.S. Notes

1. This subchapter contains modifications of the provisions of the tariff schedule established pursuant to the United States-Korea Free Trade Agreement. Goods of Korea, under the terms of general note 33 to the tariff schedule, entered and described in any of subheadings 9920.04.10 through 9920.85.02 of this subchapter for which a rate of duty followed by the symbol "(KR)" is herein provided, are subject to duty at the rate set forth in this subchapter in lieu of the rate provided in chapters 1 through 97. For purposes of this subchapter, notwithstanding any other provisions of the tariff schedule, the term "goods of Korea, under the terms of general note 33 to the tariff schedule" means goods of Korea that satisfy the requirements of general note 33 to the tariff schedule, except that operations performed in, or material obtained from, the United States shall be considered as if the operations were performed in, and the material was obtained from, a country that is not a party to the Agreement as defined in general note 33 to the tariff schedule. Such goods of Korea entered into the United States under the provisions of subheadings 9920.04.10 through 9920.85.02 are not subject to any of the provisions, duties or limitations of subchapter IV of chapter 99 of the tariff schedule. Unless otherwise provided, the provisions of this subchapter are effective as to such goods of Korea, under general note 33 to the tariff schedule, entered through the close of December 31, 2026 and shall be deleted from the tariff schedule at the close of such date.
2. Whenever goods are classifiable under a provision for which the modification of the applicable United States-Korea Free Trade Agreement rate of duty is provided for in a subheading in this subchapter, the reporting number, in the absence of specific instructions to the contrary, shall be the appropriate statistical reporting number for the basic provision (the appropriate provision for classification purposes in chapters 1 through 97) preceded by the subheading number of this subchapter. For statistical purposes, both the basic provision statistical reporting number and the applicable subheading number from this subchapter shall be collected by the United States Bureau of Census.
3. The aggregate quantity of originating goods of Korea entered under subheading 9920.04.10 in any calendar year shall not exceed the quantity specified below for that year.

## ANNEX A

### Schedule C - Classification of Country and Territory Designations for U.S. Foreign Trade Statistics

Schedule C contains the country and territory designations for use in compiling the U.S. export and import statistics. These designations should be shown in all cases where statistical information is required. The first part of this schedule contains the country designations arranged in numeric order by continent and listed in sequence within each continent generally from north to south and west to east. Abbreviated country designations, which are used in lieu of complete country names in some foreign trade reports, are also shown. The second part contains a listing in alphabetical arrangement of the countries, territories, etc., with their numeric codes. The names of the entities listed are generally the conventional spellings as approved by the U.S. Board on Geographic Names.

Revisions to Schedule C will be announced in the form of "special notices" to data users, as Public Bulletins to Schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States, and as supplements to the Harmonized Tariff Schedule of the United States Annotated for statistical purposes (HTS). HTS also includes a list of International Standard (ISO) Country Codes to be used by importers to report country of origin.

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

## ANNEX C

### Schedule D - Classification of U.S. Customs Districts and Ports for U.S. Foreign Trade Statistics

Please see the U.S. Customs and Border Protection's website for the most current listing of Code Numbers, Customs Districts and Ports. (See <https://www.cbp.gov>.)

Schedule D is included in the HTS for the convenience of the trading community. It lists U.S. Customs and Border Protection districts, the ports included under each district, and the corresponding numeric codes that must be reported for U.S. foreign trade statistics. Thus, this Schedule contains a code for each official U.S. Customs district and port, with some additional codes provided to meet specific compiling requirements of the foreign trade statistics program. The headquarters port for each district is underlined.

Some Customs ports in this list show two codes. Exporters and importers may report either code. The first part of this Schedule presents the Customs districts and ports arranged in numerical order by code, while the second part lists the ports in alphabetical order.

Because there can be a time lag in reflecting in the HTS all updates to this Schedule, users are encouraged to go to the CBP or Census web sites:

- a. Go to [www.cbp.gov](http://www.cbp.gov) or <https://www.dhs.gov/locate-port-entry-air-land-sea> to check current information and seek assistance, including how to contact ports.

## China Tariffs

(Last Updated February 25, 2026)

**This list is a reference for the additional duties on products of China pursuant to section 301 of the Trade Act of 1974.**

The table below lists the HTS subheadings in chapters 01 through 97 that are covered by the additional tariffs on products of China under section 301 and the applicable HTS heading in subchapter III of chapter 99 where the additional tariff is provided for. For additional information on these additional tariffs under section 301, please see U.S. notes 20 and 31 and the related headings and subheadings to subchapter III of chapter 99.

For reference, heading 9903.88.01 became effective on July 6, 2018; heading 9903.88.02 became effective on August 23, 2018; heading 9903.88.03 became effective on September 24, 2018; heading 9903.88.04 became effective on September 24, 2018; heading 9903.88.15 became effective on September 1, 2019; headings 9903.91.01, 9903.91.02, 9903.91.03, and 9903.92.10 became effective on September 27, 2024; headings 9903.91.05 and 9903.91.11 became effective on January 1, 2025; headings 9903.91.06, 9903.91.07, and 9903.91.08 became effective on January 1, 2026. Since heading 9903.88.16 has been suspended pursuant to Federal Register notice of December 18, 2019 (84 FR 243), references to it have been removed from this list. Headings 9903.91.12 and 9903.91.14 covering ship-to-shore cranes and other cargo handling equipment are suspended until November 10, 2026, and are not included in this list (see 90 Fed. Reg. 48320 and 90 Fed. Reg. 50947).

Search for an 8-digit subheading of interest; if it appears on this list, products in that subheading are subject to an additional duty under section 301 if they are products of China. Any product exclusion that may be granted by the U.S. Trade Representative (USTR) would be enumerated in U.S. note 20, subchapter III of chapter 99 and would be indicated by a superscript endnote attached to the end of the applicable 10-digit article description in chapters 01-97. This table is provided for reference only; users should also consult the HTS itself and the related Federal Register notices for the official list of covered products.

Additional information may be obtained from USTR at (202) 395-5725, the section 301 hotline.
