## CHAPTER 49

### PRINTED BOOKS, NEWSPAPERS, PICTURES AND OTHER PRODUCTS OF THE PRINTING INDUSTRY; MANUSCRIPTS, TYPESCRIPTS AND PLANS

X  
49-1

#### Notes

1. This chapter does not cover:
  - (a) Photographic negatives or positives on transparent bases (chapter 37);
  - (b) Maps, plans or globes, in relief, whether or not printed (heading 9023);
  - (c) Playing cards or other goods of chapter 95; or
  - (d) Original engravings, prints or lithographs (heading 9702), postage or revenue stamps, stamp-postmarks, first-day covers, postal stationery or the like of heading 9704, antiques of an age exceeding one hundred years or other articles of chapter 97.
2. For the purposes of chapter 49 the term "printed" also means reproduced by means of a duplicating machine, produced under the control of an automatic data processing machine, embossed, photographed, photocopied, thermocopied or typewritten.
3. Newspapers, journals and periodicals which are bound otherwise than in paper, and sets of newspapers, journals or periodicals comprising more than one issue under a single cover are to be classified in heading 4901, whether or not containing advertising material.
4. Heading 4901 also covers:
  - (a) A collection of printed reproductions of, for example, works of art or drawings, with a relative text, put up with numbered pages in a form suitable for binding into one or more volumes;
  - (b) A pictorial supplement accompanying and subsidiary to, a bound volume; and
  - (c) Printed parts of books or booklets, in the form of assembled or separate sheets or signatures, constituting the whole or a part of a complete work and designed for binding.

However, printed pictures or illustrations not bearing a text, whether in the form of signatures or separate sheets, fall in heading 4911.
5. Subject to note 3 of this chapter, heading 4901 does not cover publications which are essentially devoted to advertising (for example, brochures, pamphlets, leaflets, trade catalogs, yearbooks published by trade associations and tourist promotional literature). Such publications are to be classified in heading 4911.
6. For the purposes of heading 4903, the expression "children's picture books" means books for children in which the pictures form the principal interest and the text is subsidiary.

#### Additional U.S. Notes

1. For the purposes of determining the classification of printed matter produced in whole or in part by a lithographic process, the thickness of such printed matter is that of the thinnest paper contained therein, except that the thickness of a permanently mounted lithograph is the combined thickness of the lithograph and its mounting.
2. Currency in current circulation in any country imported for monetary purposes and securities and similar evidences of value provided for in heading 4907 shall be admitted without formal customs consumption entry or the payment of duty. This does not affect any requirement under other provisions of law to the effect that transfers of monetary instruments into or through the United States, in an amount exceeding \$10,000 on any one occasion, shall be reported as prescribed therein.

## SECTION XI

### TEXTILES AND TEXTILE ARTICLES

XI-1

#### Notes

1. This section does not cover:
  - (a) Animal brush-making bristles or hair (heading 0502); horsehair or horsehair waste (heading 0511);
  - (b) Human hair or articles of human hair (heading 0501, 6703 or 6704), except filtering or straining cloth of a kind commonly used in oil presses or the like (heading 5911);
  - (c) Cotton linters or other vegetable materials of chapter 14;
  - (d) Asbestos of heading 2524 or articles of asbestos or other products of heading 6812 or 6813;
  - (e) Articles of heading 3005 or 3006; yarn used to clean between the teeth, in individual retail packages (dental floss), of heading 3306;
  - (f) Sensitized textiles of headings 3701 to 3704;
  - (g) Monofilament of which any cross-sectional dimension exceeds 1 mm or strip or the like (for example, artificial straw) of an apparent width exceeding 5 mm, of plastics (chapter 39), or plaits or fabrics or other basketware or wickerwork of such monofilament or strip (chapter 46);
  - (h) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with plastics, or articles thereof, of chapter 39;
  - (ij) Woven, knitted or crocheted fabrics, felt or nonwovens, impregnated, coated, covered or laminated with rubber, or articles thereof, of chapter 40;
  - (k) Hides or skins with their hair or wool on (chapter 41 or 43) or articles of furskin, artificial fur or articles thereof, of heading 4303 or 4304;
  - (l) Articles of textile materials of heading 4201 or 4202;
  - (m) Products or articles of chapter 48 (for example, cellulose wadding);
  - (n) Footwear or parts of footwear, gaiters or leggings or similar articles of chapter 64;
  - (o) Hair-nets or other headgear or parts thereof of chapter 65;
  - (p) Goods of chapter 67;
  - (q) Abrasive-coated textile material (heading 6805) and also carbon fibers or articles of carbon fibers of heading 6815;
  - (r) Glass fibers or articles of glass fibers, other than embroidery with glass thread on a visible ground of fabric (chapter 70);
  - (s) Articles of chapter 94 (for example, furniture, bedding, luminaires and lighting fittings);
  - (t) Articles of chapter 95 (for example, toys, games, sports requisites and nets);
  - (u) Articles of Chapter 96 (for example, brushes, travel sets for sewing, slide fasteners, typewriter ribbons, sanitary pads (towels) and tampons, diapers (napkins) and diaper liners); or
  - (v) Articles of chapter 97.
2. (A) Goods classifiable in chapters 50 to 55 or in heading 5809 or 5902 and of a mixture of two or more textile materials are to be classified as if consisting wholly of that one textile material which predominates by weight over each other single textile material.

When no one textile material predominates by weight, the goods are to be classified as if consisting wholly of that one textile material which is covered by the heading which occurs last in numerical order among those which equally merit consideration.

Annotated for Statistical Reporting Purposes

XI-2

## Notes (con.)

- (B) For the purposes of the above rule:
- (a) Gimped horsehair yarn (heading 5110) and metalized yarn (heading 5605) are to be treated as a single textile material the weight of which is to be taken as the aggregate of the weights of its components; for the classification of woven fabrics, metal thread is to be regarded as a textile material;
  - (b) The choice of appropriate heading shall be effected by determining first the chapter and then the applicable heading within that chapter, disregarding any materials not classified in that chapter;
  - (c) When both chapters 54 and 55 are involved with any other chapter, chapters 54 and 55 are to be treated as a single chapter;
  - (d) Where a chapter or a heading refers to goods of different textile materials, such materials are to be treated as a single textile material.
- (C) The provisions of paragraphs (A) and (B) above apply also to the yarns referred to in notes 3, 4, 5 or 6 below.
3. (A) For the purposes of this section, and subject to the exceptions in paragraph (B) below, yarns (single, multiple (folded) or cabled) of the following descriptions are to be treated as "twine, cordage, ropes and cables":
- (a) Of silk or waste silk, measuring more than 20,000 decitex;
  - (b) Of man-made fibers (including yarn of two or more monofilaments of chapter 54), measuring more than 10,000 decitex;
  - (c) Of true hemp or flax:
    - (i) Polished or glazed, measuring 1,429 decitex or more; or
    - (ii) Not polished or glazed, measuring more than 20,000 decitex;
  - (d) Of coir, consisting of three or more plies;
  - (e) Of other vegetable fibers, measuring more than 20,000 decitex; or
  - (f) Reinforced with metal thread.
- (B) Exceptions:
- (a) Yarn of wool or other animal hair and paper yarn, other than yarn reinforced with metal thread;
  - (b) Man-made filament tow of chapter 55 and multifilament yarn without twist or with a twist of less than 5 turns per meter of chapter 54;
  - (c) Silkworm gut of heading 5006 and monofilaments of chapter 54;
  - (d) Metalized yarn of heading 5605; yarn reinforced with metal thread is subject to paragraph (A)(f) above; and
  - (e) Chenille yarn, gimped yarn and loop wale-yarn of heading 5606.
4. (A) For the purposes of chapters 50, 51, 52, 54 and 55, the expression "put up for retail sale" in relation to yarn means, subject to the exceptions in paragraph (B) below, yarn (single, multiple (folded) or cabled) put up:
- (a) On cards, reels, tubes or similar supports, of a weight (including support) not exceeding:
    - (i) 85 g in the case of silk, waste silk or man-made filament yarn; or
    - (ii) 125 g in other cases;
  - (b) In balls, hanks or skeins of a weight not exceeding:
    - (i) 85 g in the case of man-made filament yarn of less than 3,000 decitex, silk or silk waste;
    - (ii) 125 g in the case of all other yarns of less than 2,000 decitex; or
    - (iii) 500 g in other cases;

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI-3

## Notes (con.)

- (c) In hanks or skeins comprising several smaller hanks or skeins separated by dividing threads which render them independent one of the other, each of uniform weight not exceeding:
  - (i) 85 g in the case of silk, waste silk or man-made filament yarn; or
  - (ii) 125 g in other cases.
- (B) Exceptions:
  - (a) Single yarn of any textile material, except:
    - (i) Single yarn of wool or fine animal hair, unbleached; and
    - (ii) Single yarn of wool or fine animal hair, bleached, dyed or printed, measuring more than 5,000 decitex;
  - (b) Multiple (folded) or cabled yarn, unbleached:
    - (i) Of silk or waste silk, however put up; or
    - (ii) Of other textile material except wool or fine animal hair, in hanks or skeins;
  - (c) Multiple (folded) or cabled yarn of silk or waste silk, bleached, dyed or printed, measuring 133 decitex or less; and
  - (d) Single, multiple (folded) or cabled yarn of any textile material:
    - (i) In cross-reeled hanks or skeins; or
    - (ii) Put up on supports or in some other manner indicating its use in the textile industry (for example, on cops, twisting mill tubes, pirns, conical bobbins or spindles, or reeled in the form of cocoons for embroidery looms).
- 5. For the purposes of headings 5204, 5401 and 5508, the expression "sewing thread" means multiple (folded) or cabled yarn:
  - (a) Put up on supports (for example, reels, tubes) of a weight (including support) not exceeding 1,000 g;
  - (b) Dressed for use as sewing thread; and
  - (c) With a final "Z" twist.
- 6. For the purposes of this section, the expression "high tenacity yarn" means yarn having a tenacity, expressed in cN/tex (centinewtons per tex), greater than the following:
  - Single yarn of nylon or other polyamides, or of polyesters.....60 cN/tex
  - Multiple (folded) or cabled yarn of nylon or other polyamides, or of  
polyesters.....53 cN/tex
  - Single, multiple (folded) or cabled yarn of viscose rayon.....27 cN/tex
- 7. For the purposes of this section, the expression "made up" means:
  - (a) Cut otherwise than into squares or rectangles;
  - (b) Produced in the finished state, ready for use (or merely needing separation by cutting dividing threads) without sewing or other working (for example, certain dusters, towels, tablecloths, scarf squares, blankets);
  - (c) Cut to size and with at least one heat-sealed edge with a visibly tapered or compressed border and the other edges treated as described in any other subparagraph of this note, but excluding fabrics the cut edges of which have been prevented from unraveling by hot cutting or by other simple means;
  - (d) Hemmed or with rolled edges, or with a knotted fringe at any of the edges, but excluding fabrics the cut edges of which have been prevented from unraveling by whipping or by other simple means;
  - (e) Cut to size and having undergone a process of drawn thread work;

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI-4

## Notes (con.)

- (f) Assembled by sewing, gumming or otherwise (other than piece goods consisting of two or more lengths of identical material joined end to end and piece goods composed of two or more textiles assembled in layers, whether or not padded); or
- (g) Knitted or crocheted to shape, whether presented as separate items or in the form of a number of items in the length.
- 8. For the purposes of chapters 50 to 60:
  - (a) Chapters 50 to 55 and 60 and, except where the context otherwise requires, chapters 56 to 59, do not apply to goods made up within the meaning of note 7 above; and
  - (b) Chapters 50 to 55 and 60 do not apply to goods of chapters 56 to 59.
- 9. The woven fabrics of chapters 50 to 55 include fabrics consisting of layers of parallel textile yarns superimposed on each other at acute or right angles. These layers are bonded at the intersections of the yarns by an adhesive or by thermal bonding.
- 10. Elastic products consisting of textile materials combined with rubber threads are classified in this section.
- 11. For the purposes of this section, the expression "impregnated" includes "dipped."
- 12. For the purposes of this section, the expression "polyamides" includes "aramids."
- 13. For the purposes of this Section and, where applicable, throughout the tariff schedule, the expression "elastomeric yarn" means filament yarn, including monofilament, of synthetic textile material, other than textured yarn, which does not break on being extended to three times its original length and which returns, after being extended to twice its original length, within a period of five minutes, to a length not greater than one and a half times its original length.
- 14. Unless the context otherwise requires, textile garments of different headings are to be classified in their own headings even if put up in sets for retail sale. For the purposes of this note, the expression "textile garments" means garments of headings 6101 to 6114 and headings 6201 to 6211.
- 15. Subject to note 1 to section XI, textiles, garments and other textile articles, incorporating chemical, mechanical or electronic components for additional functionality, whether incorporated as built-in components or within the fiber or fabric, are classified in their respective headings in Section XI provided that they retain the essential character of the goods of this section.

## Subheading Notes

- 1. In this section and, where applicable, throughout the tariff schedule, the following expressions have the meanings hereby assigned to them:

- (a) Unbleached yarn

Yarn which:

- (i) Has the natural color of its constituent fibers and has not been bleached, dyed (whether or not in the mass) or printed; or
- (ii) Is of indeterminate color ("grey yarn"), manufactured from garnetted stock.

Such yarn may have been treated with a colorless dressing or fugitive dye (which disappears after simple washing with soap) and, in the case of man-made fibers, treated in the mass with delustering agents (for example, titanium dioxide).

- (b) Bleached yarn

Yarn which:

- (i) Has undergone a bleaching process, is made of bleached fibers or, unless the context otherwise requires, has been dyed white (whether or not in the mass) or treated with a white dressing;
- (ii) Consists of a mixture of unbleached and bleached fibers; or
- (iii) Is multiple (folded) or cabled and consists of unbleached and bleached yarns.

- (c) Colored (dyed or printed) yarn

Yarn which:

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI-5

## Subheading Notes (con.)

- (i) Is dyed (whether or not in the mass) other than white or in a fugitive color, or printed, or made from dyed or printed fibers;
- (ii) Consists of a mixture of dyed fibers of different colors or of a mixture of unbleached or bleached fibers with colored fibers (marl or mixture yarns), or is printed in one or more colors at intervals to give the impression of dots;
- (iii) Is obtained from slivers or rovings which have been printed; or
- (iv) Is multiple (folded) or cabled and consists of unbleached or bleached yarn and colored yarn.

The above definitions also apply, *mutatis mutandis*, to monofilament and to strip or the like of chapter 54.

### (d) Unbleached woven fabric

Woven fabric made from unbleached yarn and which has not been bleached, dyed or printed. Such fabric may have been treated with a colorless dressing or a fugitive dye.

### (e) Bleached woven fabric

Woven fabric which:

- (i) Has been bleached or, unless the context otherwise requires, dyed white or treated with a white dressing, in the piece;
- (ii) Consists of bleached yarn; or
- (iii) Consists of unbleached and bleached yarn.

### (f) Dyed woven fabric

Woven fabric which:

- (i) Is dyed a single uniform color other than white (unless the context otherwise requires) or has been treated with a colored finish other than white (unless the context otherwise requires), in the piece; or
- (ii) Consists of colored yarn of a single uniform color.

### (g) Woven fabric of yarns of different colors

Woven fabric (other than printed woven fabric) which:

- (i) Consists of yarns of different colors or yarns of different shades of the same color (other than the natural color of the constituent fibers);
- (ii) Consists of unbleached or bleached yarn and colored yarn; or
- (iii) Consists of marl or mixture yarns.

(In all cases, the yarn used in selvages and piece ends is not taken into consideration.)

### (h) Printed woven fabric

Woven fabric which has been printed in the piece, whether or not made from yarns of different colors.

(The following are also regarded as printed woven fabrics: woven fabrics bearing designs made, for example, with a brush or spray gun, by means of transfer paper, by flocking or by the batik process.)

The definitions at (d) to (h) above apply, *mutatis mutandis*, to knitted or crocheted fabrics.

### (ij) Plain weave

A fabric construction in which each yarn of the weft passes alternately over and under successive yarns of the warp and each yarn of the warp passes alternately over and under successive yarns of the weft.

The definitions at (d) to (h) above apply, *mutatis mutandis*, to knitted or crocheted fabrics.

## Subheading Notes (con.)

2. (A) Products of chapters 56 to 63 containing two or more textile materials are to be regarded as consisting wholly of that textile material which would be selected under note 2 to this section for the classification of a product of chapters 50 to 55 or of heading 5809 consisting of the same textile materials.
- (B) For the application of this rule:
  - (a) Where appropriate, only the part which determines the classification under general interpretative rule 3 shall be taken into account;
  - (b) In the case of textile products consisting of a ground fabric and a pile or looped surface no account shall be taken of the ground fabric;
  - (c) In the case of embroidery of heading 5810 and goods thereof, only the ground fabric shall be taken into account. However, embroidery without visible ground, and goods thereof, shall be classified with reference to the embroidering threads alone.

## Additional U.S. Notes

1. In the case of each provision in the tariff schedule on which the United States has agreed to reduce the rate of duty, pursuant to a trade agreement entered into under section 101 of the Trade Act of 1974 before January 3, 1980, on any cotton, wool or man-made fiber textile product as defined in the Arrangement Regarding International Trade in Textiles, as extended on December 14, 1977 (the Arrangement), if the Arrangement, or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, ceases to be in effect with respect to the United States before the total reduction in the rate of duty for such provision under sections 101 and 109 of the Trade Act of 1974 has become effective, then the President shall proclaim the rate of duty in rate column 1 for such provision existing on January 1, 1975, to be the rate of duty effective, with respect to articles entered or withdrawn from warehouse for consumption, within 30 days after such cessation and until the President proclaims the continuation of such reduction under the next sentence. If subsequently the Arrangement or a substitute arrangement, including unilateral import restrictions or bilateral agreements, determined by the President to be suitable, is in effect with respect to the United States, then the President shall proclaim the continuation of the reduction of such rate of duty pursuant to such trade agreement. For purposes of section 109(c)(2) of the Trade Act of 1974, any time when a rate of duty existing on January 1, 1975, is in effect under this note shall be time when part of such reduction is not in effect by reason of legislation of the United States or action thereunder.
2. The term "Certified hand-loomed and folklore" as used with respect to products provided for in the tariff schedule, refers to such products as have been certified, in accordance with procedures established by the United States Trade Representative pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made.

## Statistical Notes

1. Restraints under the Arrangement regarding International Trade in Textiles may not apply to developing country exports of "hand-loomed and folklore products" which have been certified, in accordance with procedures established by the Committee for the Implementation of Textile Agreements pursuant to international understandings, by an official of a government agency of the country where the products were produced, to have been so made. The importer is required to identify such certified products on the entry summary or withdrawal forms by placing the symbol "F" as a prefix to the appropriate 10-digit statistical reporting number.
2. For the purposes of the Tariff Schedule:
  - (a) The term "subject to cotton restraints" means articles in which:
    - (i) The cotton component equals or exceeds 50 percent by weight of all the component fibers thereof; or
    - (ii) The cotton and any wool, fine animal hair or man-made fibers in the aggregate equals or exceeds 50 percent by weight of all the component fibers thereof and the cotton component equals or exceeds the weight of each of the wool (including fine animal hair) and man-made fiber components.
  - (b) The term "subject to wool restraints" means articles not provided for in (a) above and in which the wool (including fine animal hair) component exceeds 17 percent by weight of all the component fibers thereof.

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI-7

## Statistical Notes (con.)

- (c) The term "subject to man-made fiber restraints" means articles not provided for in (a) or (b) above and the man-made fiber component, or the man-made fibers and any cotton, wool or fine animal hair in the aggregate, equals or exceeds 50 percent by weight of all the component fibers thereof.

For the application of this note, where appropriate, only the part of the product which determines the classification under general interpretive rule 3 shall be taken into account.

- 3. As a convenient cross-reference, each of the textile categories (or groupings) used by the United States in monitoring shipments of these products and to administer the United States textile trade agreements programs is listed in the schedule following the appropriate 10-digit description.

## CHAPTER 51

### WOOL, FINE OR COARSE ANIMAL HAIR; HORSEHAIR YARN AND WOVEN FABRIC

XI  
51-1

#### Note

1. Throughout the tariff schedule:

- (a) "Wool" means the natural fiber grown by sheep or lambs;
- (b) "Fine animal hair" means the hair of alpaca, llama, vicuna, camel (including dromedary), yak, Angora, Tibetan, Kashmir or similar goats (but not common goats), rabbit (including Angora rabbit), hare, beaver, nutria or muskrat; and
- (c) "Coarse animal hair" means the hair of animals not mentioned above, excluding brush-making hair and bristles (heading 0502) and horsehair (heading 0511).

#### Additional U.S. Notes

- 1. For the purposes of headings 5101, 5102, 5103 and 5104, regarding any package containing wool or fine animal hair subject to different rates of duty, notwithstanding the rates of duty shown, the column 1 rate of duty is the highest column 1 rate applicable to any part of the contents of the package comprising not less than 10 percent thereof by weight and the column 2 rate of duty is the highest column 2 rate applicable to any part of the contents of the package comprising not less than 10 percent thereof by weight.
- 2. For the purposes of this chapter:
  - (a) The term "clean kg" in the rate columns means kilogram of clean yield;
  - (b) The term "clean yield," except for purposes of carbonized fibers, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.5 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations;
  - (c) For purposes of carbonized fibers, the term "clean yield" means in the condition as entered;
  - (d)
    - (i) The term "wool for special uses" means unimproved wool and other wool of whatever blood or origin not finer than 46s entered by a dealer, manufacturer or processor, and certified for use only in the manufacture of felt or knit boots, floor coverings, heavy fulled lumbermen's socks, press cloth, papermakers' felts or pressed felt for polishing plate and mirror glass;
    - (ii) Wool for special uses shall not be released from customs custody unless the dealer, manufacturer or processor files a bond to insure that any wool entered as wool for special uses shall be used only (except as provided below) in the manufacture of the articles enumerated in subparagraph (i) above;
    - (iii) A dealer, manufacturer or processor may be relieved of liability under his or her bond with respect to any wool entered as wool for special uses which is transferred in its imported or any other form to another dealer, manufacturer or processor who has filed a bond to insure that the merchandise so transferred shall be used only (except as provided below) in the manufacture of the articles enumerated in subparagraph (i) above;
    - (iv) When wool entered as wool for special uses is used, or transferred for use, otherwise than in the manufacture of the articles enumerated in subparagraph (i) above:
      - (A) the regular duties which would have been applicable to such wool in the condition as entered shall be paid by the dealer, manufacturer or processor whose bond is charged with the wool at the time of such use or transfer for such use, but such duties shall not be levied or collected on any waste or byproducts resulting from the usual course of manufacture of the articles enumerated in subparagraph (i) above or on any merchandise which is destroyed or exported;

XI

51-2

## Additional U.S. Notes (con.)

- (B) if prior to such use or transfer for such use there shall have been combined or mixed with such wool any other merchandise, the whole of the combination or mixture shall be regarded as being composed of wool entered as wool for special uses, unless the dealer, manufacturer or processor liable for the payment of the duties shall establish the quantity of bonded wool in such combination or mixture;
- (C) every dealer, manufacturer or processor who has given a bond pursuant to the provisions for wool for special uses shall report any transfer or use of merchandise contrary to the terms of the bond, within 30 days after such transfer or use, to the district director of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and
- (D) the clean yield of any wool shall be deemed to be 100 percent, unless the actual clean yield has been determined by suitable tests and such use or transfer for use occurs not later than 3 years after the date of entry of such wool;
- (e) The term "unimproved wool" means Aleppo, Arabian, Bagdad, Black Spanish, Chinese, Cordova, Cyprus, Donskoi, East Indian, Ecuadorean, Egyptian, Georgian, Haslock, Iceland, Karakul, Kerry, Manchurian, Mongolian, Oporto, Persian, Pyrenean, Sardinian, Scotch Blackface, Sistan, Smyrna, Sudan, Syrian, Tibetan, Turkestan, Valparaiso or Welsh Mountain wool and similar wool not improved by the admixture of merino or English blood; and
- (f) The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool.

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

## CHAPTER 52

### COTTON

XI  
52-1

#### Subheading Note

1. For the purposes of subheadings 5209.42 and 5211.42, the expression "denim" means fabrics of yarns of different colors, of 3-thread or 4-thread twill, including broken twill, warp faced, the warp yarns of which are of one and the same color and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of the color of the warp yarns.

#### Additional U.S. Notes

1. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.
2. For the purposes of classifying yarns of headings 5205 and 5206 the term "nm," as applied in these headings, means the number of 1,000-meter lengths of yarn in one kilogram. To determine the nm measurement of any yarn, whether single, multiple (folded) or cabled, the actual meters per kilogram shall be divided by 1,000 and the quotient thereof multiplied by the number of single yarns therein, including the single yarns used in manufacturing multiple (folded) or cabled yarns.
3. For the purposes of the woven fabrics of chapter 52:
  - (a) The term "number," as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes--

$$N = \text{BYT}/1,000, 100\text{T}/\text{Z}', \text{BT}/\text{Z} \text{ or } \text{ST}/10$$

when:

N is the average yarn number,  
B is the breadth (width) of the fabric in centimeters,  
Y is the meters (linear) of the fabric per kilogram,  
T is the total single yarns per square centimeter,  
S is the square meters of fabric per kilogram,  
Z is the grams per linear meter of fabric, and  
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

- (b) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.
4. For the purposes of heading 5208 and 5209, the term "certified hand-loomed fabrics" means fabrics made on a hand loom (i.e., a nonpower-driven loom) by a cottage industry and which prior to exportation have been certified by an official of a government agency of the country where the fabrics were produced to have been so made.

52-2

## Additional U.S. Notes (con.)

5. The aggregate quantity of cotton, not carded or combed, the product of any country or area including the United States, having a staple length under 28.575 mm (1-1/8 inches) (except harsh or rough cotton, having a staple length under 19.05 mm (3/4 inch)), entered under subheading 5201.00.14 during the 12-month period from September 20 in any year through September 19, inclusive, shall not exceed 20,207.05 metric tons (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Of the quantitative limitations provided for in this note, the countries listed below shall have access to not less than the quantities specified below:

|                                                                                                                                                                                        | Quantity<br>(kg) |

Other than as provided for in the country allocations above, articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

6. The aggregate quantity of harsh or rough cotton, not carded or combed, the product of any country or area including the United States, having a staple length of 29.36875 mm (1-5/32 inches) or more but under 34.925 mm (1-3/8 inches) and white in color (except cotton of perished staple, grabbotts and cotton pickings), entered under subheading 5201.00.24 during the 12-month period from August 1 in any year through July 31, inclusive, shall not exceed 1,400.0 metric tons (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

7. The aggregate quantity of cotton, not carded or combed, the product of any country or area including the United States, having a staple length of 28.575 mm (1-1/8 inches) or more but under 34.925 mm (1-3/8 inches) (except harsh or rough cotton, not carded or combed, having a staple length of 29.36875 mm (1-5/32 inches) or more and white in color) but including cotton of perished staple, grabbotts and cotton pickings, entered under subheading 5201.00.34 during the 12-month period from August 1 in any year through July 31, inclusive, shall not exceed 11,500.0 metric tons (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

8. The aggregate quantity of cotton, not carded or combed, the product of any country or area including the United States, having a staple length of 34.925 mm (1-3/8 inches) or more, entered under subheading 5201.00.60 during the 12-month period from August 1 in any year through July 31, inclusive, shall not exceed 40,100.0 metric tons (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

| United Kingdom.....               | 653,695          |

Other than as provided for in the country allocations above, articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

10. The aggregate quantity of fibers of cotton processed but not spun, entered under subheading 5203.00.10 during the 12-month period from September 11 in any year through September 10, inclusive, shall not exceed 2,500 kilograms (articles the product of Mexico shall not be permitted or included in the aforementioned quantitative limitation and no such articles shall be classifiable therein).

Articles the product of countries or areas who are not members of the World Trade Organization shall not be permitted or included in the quantitative limitations set forth in this note.

## Statistical Note

1. For the purposes of the woven fabrics of chapter 52:

- (a) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:

- (i) Fabrics weighing not more than 200 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and
- (ii) Fabrics weighing more than 200 grams per square meter, of average yarn number 26 or lower number.

- (b) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:

- (i) Fabrics weighing not more than 200 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and
- (ii) Fabrics weighing more than 200 grams per square meter, but does not include:

- (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and

- (B) Fabrics of average yarn number 27 or higher number, not of square construction.

- (c) The term "cheesecloth" means plain weave fabrics, weighing not more than 200 grams per square meter, containing not more than 33 warp ends and filling picks per square centimeter, whether or not napped.

## Statistical Note (con.)

- (d) The term "printcloth" means plain weave fabrics, weighing not more than 200 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, not combed, whether or not napped.
- (e) The term "lawns, voiles or batistes" means plain weave fabrics, weighing not more than 200 grams per square meter, of average yarn number 69 or higher number, containing more than 33 warp ends and filling picks per square centimeter, of square construction, whether or not napped.
- (f) The term "sateens" means satin weave fabrics, whether or not napped.
- (g) The term "oxford cloth" means fabrics weighing not more than 200 grams per square meter, whether or not napped, woven as plain weave except that two or more warp ends are woven as one (taped warp). Oxford cloth is not to be classified as a plain weave fabric.
- (h) The term "duck" means fabrics weighing more than 200 grams per square meter, of average yarn number 26 or lower number, whether or not napped, of the following types:
  - (i) Plain weave, of which the warp or filling consists of multiple (folded) or cabled yarns; or
  - (ii) Woven as plain weave except that two or more warp ends are woven as one (taped warp), whether or not containing multiple (folded) or cabled yarns; this latter type of duck is not to be classified as a plain weave fabric.
- (ij) The term "square construction" means fabrics of the following types:
  - (i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or
  - (ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.
- (k) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.
- (l) The term "not combed" means fabrics wholly or in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.
- (m) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed, whether or not containing other fibers.
- (n) The term "osnaburg" means plain woven fabrics of square construction, not combed, not napped, weighing more than 200 g/m<sup>2</sup>, of average yarn number 22 or lower and containing less than 28 warp ends and filling picks per centimeter.
- (o) The term "blue denim" means fabrics of 3-thread or 4-thread twill, including broken twill, warp faced, the warp yarns of which are dyed blue and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of blue than that of the warp yarns.
- (p) The term "discharge printed" fabrics refers to fabrics which have been:
  - (i) Dyed, not tinted, a single uniform color other than white;
  - (ii) Further processed using a method whereby chlorine or other color-destroying chemicals are applied to discrete portions of the dyed fabric to bleach out or discharge the dye and printed in those discrete portions thereby yielding a different colored pattern on the previously dyed ground; and
  - (iii) Subjected to two or more of the following finishing operations: bleaching, shrinking, filling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

## CHAPTER 53

### OTHER VEGETABLE TEXTILE FIBERS; PAPER YARN AND WOVEN FABRICS OF PAPER YARN

XI  
53-1

#### Statistical Note

1. For the purposes of the woven fabrics of chapter 53:

- (a) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.
- (b) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:
  - (i) Fabrics weighing not more than 200 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and
  - (ii) Fabrics weighing more than 200 grams per square meter, of average yarn number 26 or lower number.
- (c) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:
  - (i) Fabrics weighing not more than 200 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and
  - (ii) Fabrics weighing more than 200 grams per square meter, but does not include:
    - (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and
    - (B) Fabrics of average yarn number 27 or higher number, not of square construction.
- (d) The term "printcloth" means plain weave fabrics, weighing not more than 200 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, not combed, whether or not napped.
- (e) The term "square construction" means fabrics of the following types:
  - (i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or
  - (ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.
- (f) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.
- (g) The term "not combed" means fabrics wholly or in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.
- (h) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed, whether or not containing other fibers.

XI

53-2

## Statistical Note (con.)

- (ij) The term "number," as applied to woven fabrics of chapter 53, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number--

$$N = \text{BYT}/1,000, 100\text{T}/\text{Z}', \text{BT}/\text{Z} \text{ or } \text{ST}/10$$

when:

N is the average yarn number,  
B is the breadth (width) of the fabric in centimeters,  
Y is the meters (linear) of the fabric per kilogram,  
T is the total single yarns per square centimeter,  
S is the square meters of fabric per kilogram,  
Z is the grams per linear meter of fabric, and  
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

Annotated for Statistical Reporting Purposes

## CHAPTER 54

### MAN-MADE FILAMENTS; STRIP AND THE LIKE OF MAN-MADE TEXTILE MATERIALS

XI  
54-1

#### Notes

1. Throughout the tariff schedule, the term "man-made fibers" means staple fibers and filaments of organic polymers produced by manufacturing processes, either:
  - (a) By polymerization of organic monomers to produce polymers such as polyamides, polyesters, polyolefins or polyurethanes, or by chemical modification of polymers produced by this process (for example, poly(vinyl alcohol) prepared by the hydrolysis of poly(vinyl acetate)); or
  - (b) By dissolution or chemical treatment of natural organic polymers (for example, cellulose) to produce polymers such as cuprammonium rayon (cupro) or viscose rayon, or by chemical modification of natural organic polymers (for example, cellulose, casein and other proteins, or alginic acid), to produce polymers such as cellulose acetate or alginates.

The terms "synthetic" and "artificial", used in relation to fibers, mean: synthetic: fibers as defined at (a); artificial: fibers as defined at (b). Strip and the like of heading 5404 or 5405 are not considered to be man-made fibers.

The terms "man-made", "synthetic" and "artificial" shall have the same meanings when used in relation to "textile materials".

2. Headings 5402 and 5403 do not apply to synthetic or artificial filament tow of chapter 55.

#### Statistical Notes

1. For the purposes of the woven fabrics of chapter 54:
  - (a) Unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.
  - (b) The term "flat fabrics" means fabrics not containing yarns twisted more than 472 turns per meter.
  - (c) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:
    - (i) Fabrics weighing not more than 170 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and
    - (ii) Fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number.
  - (d) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:
    - (i) Fabrics weighing not more than 170 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and
    - (ii) Fabrics weighing more than 170 grams per square meter, but does not include:
      - (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and
      - (B) Fabrics of average yarn number 27 or higher number, not of square construction.
  - (e) The term "printcloth" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, whether or not napped, of the following types:
    - (i) Fabrics, not combed; and
    - (ii) Other fabrics, measuring less than 168 cm in width.
  - (f) The term "square construction" means fabrics of the following types:

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI

54-2

## Statistical Notes (con.)

- (i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or
- (ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.
- (g) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.
- (h) The term "not combed" means fabrics in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.
- (ij) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed.
- (k) The term "number," as applied to woven fabrics of man-made fibers, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number--

$$N = \text{BYT}/1000, 100\text{T}/\text{Z}', \text{BT}/\text{Z} \text{ or } \text{ST}/10$$

when:

N is the average yarn number,  
B is the breadth (width) of the fabric in centimeters,  
Y is the meters (linear) of the fabric per kilogram,  
T is the total single yarns per square centimeter,  
S is the square meters of fabric per kilogram,  
Z is the grams per linear meter of fabric, and  
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

2. The term "discharge printed" fabrics refers to fabrics which have been:

- (a) Dyed, not tinted, a single uniform color other than white;
- (b) Further processed using a method whereby chlorine or other color-destroying chemicals are applied to discrete portions of the dyed fabric to bleach out or discharge the dye and printed in those discrete portions thereby yielding a different colored pattern on the previously dyed ground; and
- (c) Subjected to two or more of the following finishing operations: bleaching, shrinking, filling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

## CHAPTER 55

### MAN-MADE STAPLE FIBERS

XI  
55-1

#### Note

1. Headings 5501 and 5502 apply only to man-made filament tow, consisting of parallel filaments of a uniform length equal to the length of the tow, meeting the following specifications:
  - (a) Length of tow exceeding 2 m;
  - (b) Twist less than 5 turns per meter;
  - (c) Measuring per filament less than 67 decitex;
  - (d) Synthetic filament tow only: the tow must be drawn, that is to say, be incapable of being stretched by more than 100 percent of its length; and
  - (e) Total measurement of tow more than 20,000 decitex.

Tow of a length not exceeding 2 m is to be classified in heading 5503 or 5504.

#### Additional U.S. Note

1. For the purposes of the woven fabrics of chapter 55, unless the context otherwise requires, provisions relating to one or more weaves embrace only those fabrics which (excluding selvage) are wholly of the specified weave or weaves, including combinations exclusively thereof.

#### Statistical Notes

1. For the purposes of the woven fabrics of chapter 55:
  - (a) The term "poplin or broadcloth" means plain weave fabrics, not of square construction, whether or not napped, but does not include the following types:
    - (i) Fabrics weighing not more than 170 grams per square meter, containing 33 or less warp ends and filling picks per square centimeter; and
    - (ii) Fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number.
  - (b) The term "sheeting" means plain weave fabrics, whether or not napped, of the following types:
    - (i) Fabrics weighing not more than 170 grams per square meter, of square construction, containing more than 33 warp ends and filling picks per square centimeter, of average yarn number 68 or lower number, but not including printcloth; and
    - (ii) Fabrics weighing more than 170 grams per square meter, but does not include:
      - (A) Fabrics of which the warp or filling consists of multiple (folded) or cabled yarns, of average yarn number 26 or lower number; and
      - (B) Fabrics of average yarn number 27 or higher number, not of square construction.
  - (c) The term "printcloth" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn numbers 43-68, containing more than 33 singles yarns per square centimeter and not containing multiple (folded) or cabled yarns, of square construction, whether or not napped, of the following types:
    - (i) Fabrics, not combed; and
    - (ii) Other fabrics, measuring less than 168 cm in width.
  - (d) The term "cheesecloth" means plain weave fabrics, weighing not more than 170 grams per square meter, containing not more than 33 warp ends and filling picks per square centimeter, whether or not napped.

55-2

## Statistical Notes (con.)

- (e) The term "lawns, voiles or batistes" means plain weave fabrics, weighing not more than 170 grams per square meter, of average yarn number 69 or higher number, consisting of more than 33 warp ends and filling picks per square centimeter, of square construction, whether or not napped.
- (f) The term "duck" means fabrics weighing more than 170 grams per square meter, of average yarn number 26 or lower number, whether or not napped, of the following types:
  - (i) Plain weave, of which the warp or filling consists of multiple (folded) or cabled yarns; or
  - (ii) Woven as plain weave except that two or more warp ends are woven as one (taped warp), whether or not containing multiple (folded) or cabled yarns; this latter type of duck is not to be classified as a plain weave fabric.
- (g) The term "oxford cloth" means fabrics weighing not more than 170 grams per square meter, whether or not napped, woven as plain weave except that two or more warp ends are woven as one (taped warp). Oxford cloth is not to be classified as a plain weave fabric.
- (h) The term "blue denim" means fabrics weighing more than 170 grams per square meter, of 3-thread or 4-thread twill, including broken twill, warp faced, the warp yarns of which are dyed blue and the weft yarns of which are unbleached, bleached, dyed grey or colored a lighter shade of blue than that of the warp yarns.
- (ij) The term "square construction" means fabrics of the following types:
  - (i) Containing less than 79 warp ends and filling picks per square centimeter, of which the difference between the total count of warp ends per centimeter and the total count of filling picks per centimeter is less than 11; or
  - (ii) Containing 79 or more warp ends and filling picks per square centimeter, of which the total count of warp ends per centimeter and the total count of filling picks per centimeter are each less than 57 percent of the total count per square centimeter of such warp ends and filling picks.
- (k) The term "napped" means fabrics with a fuzzy, fibrous surface produced by scratching or pricking the surface so that some of the fibers are raised from the body of the yarn. Napped fabrics are not to be confused with pile fabrics. Outing and canton flannel, moleskin, etc., are typical fabrics with a nap.
- (l) The term "not combed" means fabrics in part of uncombed cotton, other vegetable textile fibers or wool or fine animal hair.
- (m) The term "combed" means fabrics containing cotton, other vegetable textile fibers or wool or fine animal hair, in which such fibers are combed.
- (n) The term "number," as applied to woven fabrics of man-made fibers, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous and with the count being taken of the total single yarns in the fabric including the single yarns in any multiple (folded) or cabled yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number--

$$N = \text{BYT}/1000, 100\text{T}/\text{Z}', \text{BT}/\text{Z} \text{ or } \text{ST}/10$$

when:

N is the average yarn number,  
B is the breadth (width) of the fabric in centimeters,  
Y is the meters (linear) of the fabric per kilogram,  
T is the total single yarns per square centimeter,  
S is the square meters of fabric per kilogram,  
Z is the grams per linear meter of fabric, and  
Z' is the grams per square meter of fabric.

Fractions in the resulting "number" shall be disregarded.

- 2. The term "discharge printed" fabrics refers to fabrics which have been:
  - (a) Dyed, not tinted, a single uniform color other than white;

55-3

## Statistical Notes (con.)

- (b) Further processed using a method whereby chlorine or other color-destroying chemicals are applied to discrete portions of the dyed fabric to bleach out or discharge the dye and printed in those discrete portions thereby yielding a different colored pattern on the previously dyed ground; and
- (c) Subjected to two or more of the following finishing operations: bleaching, shrinking, filling, napping, decating, permanent stiffening, weighting, permanent embossing or moireing.

## CHAPTER 56

### WADDING, FELT AND NONWOVENS; SPECIAL YARNS; TWINE, CORDAGE, ROPES AND CABLES AND ARTICLES THEREOF

XI  
56-1

#### Notes

1. This chapter does not cover:
  - (a) Wadding, felt or nonwovens, impregnated, coated or covered with substances or preparations (for example, perfumes or cosmetics of chapter 33, soaps or detergents of heading 3401, polishes, creams or similar preparations of heading 3405, fabric softeners of heading 3809) where the textile material is present merely as a carrying medium;
  - (b) Textile products of heading 5811;
  - (c) Natural or artificial abrasive powder or grain, on a backing of felt or nonwovens (heading 6805);
  - (d) Agglomerated or reconstituted mica, on a backing of felt or nonwovens (heading 6814);
  - (e) Metal foil on a backing of felt or nonwovens (generally section XIV or XV); or
  - (f) Sanitary pads (towels) and tampons, diapers (napkins) and diaper liners and similar articles of heading 9619.
2. The term "**felt**" includes needleloom felt and fabrics consisting of a web of textile fibers the cohesion of which has been enhanced by a stitch-bonding process using fibers from the web itself.
3. Headings 5602 and 5603 cover respectively felt and nonwovens, impregnated, coated, covered or laminated with plastics or rubber whatever the nature of these materials (compact or cellular).

Heading 5603 also includes nonwovens in which plastics or rubber forms the bonding substance.

Headings 5602 and 5603 do not, however, cover:

  - (a) Felt impregnated, coated, covered or laminated with plastics or rubber, containing 50 percent or less by weight of textile material or felt completely embedded in plastics or rubber (chapter 39 or 40);
  - (b) Nonwovens, either completely embedded in plastics or rubber, or entirely coated or covered on both sides with such materials, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of color (chapter 39 or 40); or
  - (c) Plates, sheets or strip of cellular plastics or cellular rubber combined with felt or nonwovens, where the textile material is present merely for reinforcing purposes (chapter 39 or 40).
4. Heading 5604 does not cover textile yarn, or strip or the like of heading 5404 or 5405, in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55); for the purpose of this provision, no account should be taken of any resulting change of color.

#### Additional U.S. Notes

1. The term "of wide nonfibrillated strip", as applied to twine, cordage, rope or cables of subheadings 5607.41.10 and 5607.49.10, embraces products which contain more than 65 percent by weight of nonfibrillated polyethylene or polypropylene strip (whether folded, twisted or crimped) measuring more than 25.4 mm in width in unfolded, untwisted and uncrimped condition.
2. Heading 5607 does not cover twine, cordage, rope or cables, of metal (section XV).

#### Statistical Note

1. The term "salmon gill netting, of nylon or other polyamides", as used in statistical reporting number 5608.19.1010, means fish netting, of nylon or other polyamide fibers, consisting of monofilament yarns measuring not more than 0.806 mm in maximum cross-sectional dimension or multifilament yarns measuring not more than 233 decitex, or a combination of the foregoing, of double- or triple-knot construction, colored, having a stretch mesh size of not less than 10.5 cm and not more than 21.6 cm.

## CHAPTER 57

### CARPETS AND OTHER TEXTILE FLOOR COVERINGS

XI  
57-1

#### Notes

1. For the purposes of this chapter, the term "carpets and other textile floor coverings" means floor coverings in which textile materials serve as the exposed surface of the article when in use and includes articles having the characteristics of textile floor coverings but intended for use for other purposes.
2. This chapter does not cover floor covering underlays.

## CHAPTER 58

### SPECIAL WOVEN FABRICS; TUFTED TEXTILE FABRICS; LACE; TAPESTRIES; TRIMMINGS; EMBROIDERY

XI  
58-1

#### Notes

1. This chapter does not apply to textile fabrics referred to in note 1 to chapter 59, impregnated, coated, covered or laminated, or to other goods of chapter 59.
2. Heading 5801 also includes woven weft pile fabrics which have not yet had the floats cut, at which stage they have no pile standing up.
3. For the purposes of heading 5803, "gauze" means a fabric with a warp composed wholly or in part of standing or ground threads and crossing or doup threads which cross the standing or ground threads making a half turn, a complete turn or more to form loops through which weft threads pass.
4. Heading 5804 does not apply to knotted net fabrics of twine, cordage or rope, of heading 5608.
5. For the purposes of heading 5806, the expression "narrow woven fabrics" means:
  - (a) Woven fabrics of a width not exceeding 30 cm, whether woven as such or cut from wider pieces, provided with selvages (woven, gummed or otherwise made) on both edges;
  - (b) Tubular woven fabrics of a flattened width not exceeding 30 cm; and
  - (c) Bias binding with folded edges, of a width when unfolded not exceeding 30 cm.Narrow woven fabrics with woven fringes are to be classified in heading 5808.
6. In heading 5810, the expression "embroidery" means, *inter alia*, embroidery with metal or glass thread on a visible ground of textile fabric, and sewn applique work of sequins, beads or ornamental motifs of textile or other materials. The heading does not apply to needlework tapestry (heading 5805).
7. In addition to the products of heading 5809, this chapter also includes articles made of metal thread and of a kind used in apparel, as furnishing fabrics or for similar purposes.

#### Additional U.S. Notes

1. The rates of duty applicable to subheading 5810.91.00 are:

|                     |                                                                                                                               |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------|
| column 1 (general)- | Free, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered. |
| column 2-           | 90%, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered.  |
2. The rates of duty applicable to subheading 5810.92.10 are:

|                     |                                                                                                                               |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------|
| column 1 (general)- | 4.2%, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered. |
| column 2-           | 90%, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered.  |
3. The rates of duty applicable to subheading 5810.92.90 are:

|                     |                                                                                                                               |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------|
| column 1 (general)- | 7.4%, but in the case of embroidery in the piece not less than the rate which would apply to such product if not embroidered. |

## CHAPTER 59

### IMPREGNATED, COATED, COVERED OR LAMINATED TEXTILE FABRICS; TEXTILE ARTICLES OF A KIND SUITABLE FOR INDUSTRIAL USE

XI  
59-1

#### Notes

1. Except where the context otherwise requires, for the purposes of this chapter the expression "textile fabrics" applies only to the woven fabrics of chapters 50 to 55 and headings 5803 and 5806, the braids and ornamental trimmings in the piece of heading 5808 and the knitted or crocheted fabrics of headings 6002 to 6006.
2. Heading 5903 applies to:
  - (a) Textile fabrics, impregnated, coated, covered or laminated with plastics, whatever the weight per square meter and whatever the nature of the plastic material (compact or cellular), other than:
    - (1) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;
    - (2) Products which cannot, without fracturing, be bent manually around a cylinder of a diameter of 7 mm, at a temperature between 15°C and 30°C (usually chapter 39);
    - (3) Products in which the textile fabric is either completely embedded in plastics or entirely coated or covered on both sides with such material, provided that such coating or covering can be seen with the naked eye with no account being taken of any resulting change of color (chapter 39);
    - (4) Fabrics partially coated or partially covered with plastics and bearing designs resulting from these treatments (usually chapters 50 to 55, 58 or 60);
    - (5) Plates, sheets or strip of cellular plastics, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (chapter 39); or
    - (6) Textile products of heading 5811.
  - (b) Fabrics made from yarn, strip or the like, impregnated, coated, covered or sheathed with plastics, of heading 5604.
3. For the purposes of heading 5903, "textile fabrics laminated with plastics" means products made by the assembly of one or more layers of fabrics with one or more sheets or film of plastics which are combined by any process that bonds the layers together, whether or not the sheets or film of plastics are visible to the naked eye in the cross-section.
4. For the purposes of heading 5905, the expression "textile wall coverings" applies to products in rolls, of a width of not less than 45 cm, suitable for wall or ceiling decoration, consisting of a textile surface which has been fixed on a backing or has been treated on the back (impregnated or coated to permit pasting).

This heading does not, however, apply to wall coverings consisting of textile flock or dust fixed directly on a backing of paper (heading 4814) or on a textile backing (generally heading 5907).

5. For the purposes of heading 5906, the expression "rubberized textile fabrics" means:
  - (a) Textile fabrics impregnated, coated, covered or laminated with rubber:
    - (i) Weighing not more than 1,500 g/m<sup>2</sup>; or
    - (ii) Weighing more than 1,500 g/m<sup>2</sup> and containing more than 50 percent by weight of textile material;
  - (b) Fabrics made from yarn, strip or the like, impregnated, coated, covered or sheathed with rubber, of heading 5604; and
  - (c) Fabrics composed of parallel textile yarns agglomerated with rubber, irrespective of their weight per square meter.

This heading does not, however, apply to plates, sheets or strip of cellular rubber, combined with textile fabric, where the textile fabric is present merely for reinforcing purposes (chapter 40), or textile products of heading 5811.

6. Heading 5907 does not apply to:

59-2

## Notes (con.)

- (a) Fabrics in which the impregnation, coating or covering cannot be seen with the naked eye (usually chapters 50 to 55, 58 or 60); for the purpose of this provision, no account should be taken of any resulting change of color;
  - (b) Fabrics painted with designs (other than painted canvas being theatrical scenery, studio back-cloths or the like);
  - (c) Fabrics partially covered with flock, dust, powdered cork or the like and bearing designs resulting from these treatments; however, imitation pile fabrics remain classified in this heading;
  - (d) Fabrics finished with normal dressings having a basis of amylaceous or similar substances;
  - (e) Wood veneered on a backing of textile fabrics (heading 4408);
  - (f) Natural or artificial abrasive powder or grain, on a backing of textile fabrics (heading 6805);
  - (g) Agglomerated or reconstituted mica, on a backing of textile fabrics (heading 6814); or
  - (h) Metal foil on a backing of textile fabrics (generally Section XIV or XV).
7. Heading 5910 does not apply to:
- (a) Transmission or conveyor belting, of textile material, of a thickness of less than 3 mm; or
  - (b) Transmission or conveyor belts or belting of textile fabric impregnated, coated, covered or laminated with rubber or made from textile yarn or cord impregnated, coated, covered or sheathed with rubber (heading 4010).
8. Heading 5911 applies to the following goods, which do not fall in any other heading of section XI:
- (a) Textile products in the piece, cut to length or simply cut to rectangular (including square) shape (other than those having the character of the products of headings 5908 to 5910), the following only:
    - (i) Textile fabrics, felt and felt-lined woven fabrics, coated, covered or laminated with rubber, leather or other material, of a kind used for card clothing, and similar fabrics of a kind used for other technical purposes, including narrow fabrics made of velvet impregnated with rubber, for covering weaving spindles (weaving beams);
    - (ii) Bolting cloth;
    - (iii) Filtering and straining cloth of a kind used in oil presses or the like, of textile material or of human hair;
    - (iv) Flat woven textile fabrics with multiple warp or weft, whether or not felted, impregnated or coated, of a kind used in machinery or for other technical purposes;
    - (v) Textile fabric reinforced with metal, of a kind used for technical purposes;
    - (vi) Cords, braids and the like, whether or not coated, impregnated or reinforced with metal, of a kind used in industry as packing or lubricating materials;
  - (b) Textile articles (other than those of headings 5908 to 5910) of a kind used for technical purposes (for example, textile fabrics and felts, endless or fitted with linking devices, of a kind used in papermaking or similar machines (for example, for pulp or asbestos-cement), gaskets, washers, polishing discs and other machinery parts).

## CHAPTER 60

### KNITTED OR CROCHETED FABRICS

XI  
60-1

#### Notes

1. This chapter does not cover:
  - (a) Crochet lace of heading 5804;
  - (b) Labels, badges or similar articles, knitted or crocheted, of heading 5807; or
  - (c) Knitted or crocheted fabrics, impregnated, coated, covered or laminated, of chapter 59. However, knitted or crocheted pile fabrics, impregnated, coated, covered or laminated, remain classified in heading 6001.
2. This chapter also includes fabrics made of metal thread and of a kind used in apparel, as furnishing fabrics or for similar purposes.
3. Throughout the tariff schedule any reference to "knitted" goods includes a reference to stitch-bonded goods in which the chain stitches are formed of textile yarn.

#### Subheading Note

1. Subheading 6005.35 covers fabrics of polyethylene monofilament or of polyester multifilament, weighing not less than 30g/m<sup>2</sup> and not more than 55 g/m<sup>2</sup>, having a mesh size of not less than 20 holes/cm<sup>2</sup> and not more than 100 holes/cm<sup>2</sup>, and impregnated or coated with alpha-cypermethrin (ISO), chlorfenapyr (ISO), deltamethrin (INN, ISO), lambda-cyhalothrin (ISO), permethrin (ISO), or pirimiphos-methyl (ISO).

#### Additional U.S. Notes

1. For purposes of heading 6001, the term "long pile fabrics" refers to fabrics made by inserting fibers from card sliver into the loops of the ground fabric during knitting.
2. For purposes of this chapter, the term "open-work fabrics" means fabrics with stable open meshes, whether or not containing inwrought designs.

#### Statistical Note

1. For purposes of statistical reporting numbers 6001.92.0010 and 6001.92.0030, the term "velour" refers to fabrics containing 12 or more stitches per centimeter in the vertical direction.

## CHAPTER 61

### ARTICLES OF APPAREL AND CLOTHING ACCESSORIES, KNITTED OR CROCHETED

XI  
61-1

#### Notes

1. This chapter applies only to made up knitted or crocheted articles.
2. This chapter does not cover:
  - (a) Goods of heading 6212;
  - (b) Worn clothing or other worn articles of heading 6309;
  - (c) Orthopedic appliances, surgical belts, trusses or the like (heading 9021).
3. For the purposes of headings 6103 and 6104:
  - (a) The term "suit" means a set of garments composed of two or three pieces made up, in respect of their outer surface, in identical fabric and comprising:
    - one suit coat or jacket the outer shell of which, exclusive of sleeves, consists of four or more panels, designed to cover the upper part of the body, possibly with a tailored waistcoat in addition whose front is made from the same fabric as the outer surface of the other components of the set and whose back is made from the same fabric as the lining of the suit coat or jacket; and
    - one garment designed to cover the lower part of the body and consisting of trousers, breeches or shorts (other than swim-wear), a skirt or a divided skirt, having neither braces nor bibs.

All of the components of a "suit" must be of the same fabric construction, color and composition; they must also be of the same style and of corresponding or compatible size. However, these components may have piping (a strip of fabric sewn into the seam) in a different fabric.

If several separate components to cover the lower part of the body are presented together (for example, two pairs of trousers or trousers and shorts, or a skirt or divided skirt and trousers), the constituent lower part shall be one pair of trousers or, in the case of women's or girls' suits, the skirt or divided skirt, the other garments being considered separately.

The term "suit" includes the following sets of garments whether or not they fulfill all the above conditions:

- morning dress, comprising a plain jacket (cutaway) with rounded tails hanging well down at the back and striped trousers;
  - evening dress (tailcoat), generally made of black fabric, the jacket of which is relatively short at the front, does not close and has narrow skirts cut in at the hips and hanging down behind;
  - dinner jacket suits, in which the jacket is similar in style to an ordinary jacket (though perhaps revealing more of the shirt front), but has shiny silk or imitation silk lapels.
- (b) The term "ensemble" means a set of garments (other than suits and articles of heading 6107, 6108 or 6109), composed of several pieces made up in identical fabric, put up for retail sale, and comprising:
    - one garment designed to cover the upper part of the body, with the exception of pullovers which may form a second upper garment in the sole context of twin sets, and of waistcoats which may also form a second upper garment, and
    - one or two different garments, designed to cover the lower part of the body and consisting of trousers, bib and brace overalls, breeches, shorts (other than swimwear), a skirt or a divided skirt.

All of the components of an ensemble must be of the same fabric construction, style, color and composition; they also must be of corresponding or compatible size. The term "ensemble" does not apply to track suits or ski-suits of heading 6112.

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI

61-2

## Notes (con.)

4. Headings 6105 and 6106 do not cover garments with pockets below the waist, with a ribbed waistband or other means of tightening at the bottom of the garment, or garments having an average of less than 10 stitches per linear centimeter in each direction counted on an area measuring at least 10 cm by 10 cm. Heading 6105 does not cover sleeveless garments.

"Shirts" and "shirt-blouses" are garments designed to cover the upper part of the body, having long or short sleeves and a full or partial opening starting at the neckline. "Blouses" are loose-fitting garments also designed to cover the upper part of the body but may be sleeveless and with or without an opening at the neckline. "Shirts", "shirt-blouses" and "blouses" may also have a collar.

5. Heading 6109 does not cover garments with a drawstring, ribbed waistband or other means of tightening at the bottom of the garment.

6. For the purposes of heading 6111:

- (a) The expression "babies' garments and clothing accessories" means articles for young children of a body height not exceeding 86 centimeters;
- (b) Articles which are, prima facie, classifiable both in heading 6111 and in other headings of this chapter are to be classified in heading 6111.

7. For the purposes of heading 6112, "ski-suits", means garments or sets of garments which, by their general appearance and texture, are identifiable as intended to be worn principally for skiing (cross-country or alpine). They consist either of:

- (a) A "ski overall," that is, a one-piece garment designed to cover the upper and the lower parts of the body; in addition to sleeves and a collar the ski overall may have pockets or footstraps; or
- (b) A "ski ensemble," that is, a set of garments composed of two or three pieces, put up for retail sale and comprising:
- one garment such as an anorak, windbreaker or similar article, closed by a slide fastener (zipper), possibly with a waistcoat in addition, and
  - one pair of trousers whether or not extending above waist level, one pair of breeches or one bib and brace overall.

The "ski ensemble" may also consist of an overall similar to the one mentioned in paragraph (a) above and a type of padded, sleeveless jacket worn over the overall.

All the components of a "ski ensemble" must be made up in a fabric of the same texture, style and composition whether or not of the same color; they also must be of corresponding or compatible size.

8. Garments which are, prima facie, classifiable both in heading 6113 and in other headings of this chapter, excluding heading 6111, are to be classified in heading 6113.

9. Garments of this chapter designed for left over right closure at the front shall be regarded as men's or boys' garments, and those designed for right over left closure at the front as women's or girls' garments. These provisions do not apply where the cut of the garment clearly indicates that it is designed for one or other of the sexes.

Garments which cannot be identified as either men's or boys' garments or as women's or girls' garments are to be classified in the headings covering women's or girls' garments.

10. Articles of this chapter may be made of metal thread.

## Additional U.S. Note

1. For the purpose of heading 6111, the term "sets" means two or more different garments of headings 6111, 6209 or 6505 imported together, of corresponding sizes and intended to be worn together by the same person.

## Statistical Notes

1. Merchandise entered together and classified for customs purposes as an ensemble, under subheadings 6103.21.00, 6103.22.00, 6103.23.00, 6103.29.10, 6104.21.00, 6104.22.00, 6104.23.00 or 6104.29.10, or as a track suit under subheadings 6112.11.00, or 6112.12.00 shall be reported statistically as separate articles under the most appropriate 10-digit reporting number within the same 8-digit tariff subheading which provides for the ensemble or track suit, warm-up or jogging suit.
2. For purposes of headings 6103, 6104 and 6112, statistical provisions for shirts refer to garments provided for in headings 6105, 6106 and 6110, other than sweaters, pullovers, vests or cardigans referred to in statistical note 3 below.

# Harmonized Tariff Schedule of the United States Revision 10 (2026)

Annotated for Statistical Reporting Purposes

XI  
61-3

## Statistical Notes (con.)

3. For purposes of this chapter, statistical provisions for sweaters include garments, whether or not known as pullovers, vests or cardigans, the outer surfaces of which are constructed essentially with 9 or fewer stitches per 2 centimeters measured in the direction the stitches were formed, and garments, known as sweaters, where, due to their construction, the stitches on the outer surface cannot be counted in the direction the stitches were formed.
4. Certain garments of chapter 61 assembled abroad from components formed and cut in the United States which, after assembly have been subject to bleaching, garment dyeing or perma-pressing abroad, may be eligible for entry under a Special Access Regime. Eligibility must be established under a bilateral agreement, and entry must be in compliance with procedures established by the Committee for the Implementation of Textile Agreements. The importer is required to identify such garments on the entry summary or withdrawal forms by placing the symbol "H" as a prefix to the appropriate 10-digit chapter 61 tariff number.
5. Certain garments of chapter 61, manufactured (cut and assembled) from fabric formed in the United States, may be eligible for entry under the Outward Processing Program for textiles and apparel. Eligibility must be in compliance with procedures established by the Committee for the Implementation of Textile Agreements (CITA). The importer is required to identify such garments on the entry summary or withdrawal forms by placing the symbol "S" as a prefix to the appropriate 10-digit chapter 61 tariff number.
6. For the purposes of statistical reporting under heading 6110, the term "knit to shape" means garments knit to shape on flat-knitting machines, having a stitch count exceeding 9 stitches per 2 centimeters, but less than or equal to 18 stitches per 2 centimeters, measured on the outer surfaces of the fabric, in the direction on which the stitches are formed. For purposes of this statistical note, in the instances where both knit and purl stitches are usually counted, the purl stitches will be disregarded, and only the knit stitches on the outer surface of the fabric will be counted. All of the garment's components, which include, but are not limited to, collars, plackets, cuffs, waistbands and pockets, are knit to shape. All of the components are assembled by looping and linking, including the side seams.
