I  
5-1

#### Notes:

1. This chapter does not cover:
  - (a) Edible products (other than guts, bladders and stomachs of animals, whole and pieces thereof, and animal blood, liquid or dried);
  - (b) Hides or skins (including furskins) other than goods of heading 0505 and parings and similar waste of raw hides or skins of heading 0511 (chapter 41 or 43);
  - (c) Animal textile materials, other than horsehair and horsehair waste (section XI); or
  - (d) Prepared knots or tufts for broom or brush making (heading 9603).
2. For the purposes of heading 0501, the sorting of hair by length (provided the root ends and tip ends, respectively, are not arranged together) shall be deemed not to constitute working.
3. Throughout the tariff schedule, elephant, hippopotamus, walrus, narwhal and wild boar tusks, rhinoceros horns and the teeth of all animals are regarded as "ivory."
4. Throughout the tariff schedule, the expression "horsehair" means hair of the manes or tails of equine or bovine animals. Heading 0511 covers, inter alia, horsehair and horsehair waste, whether or not put up as a layer with or without supporting material.

#### Additional U.S. Notes:

1. (a) Except as provided in paragraphs (b) and (c) of this note, the importation of the feathers or skin of any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird:
  - (i) Whether raw or processed;
  - (ii) Whether the whole plumage or skin or any part of either;
  - (iii) Whether or not attached to a whole bird or any part thereof; and
  - (iv) Whether or not forming part of another article.
- (b) Paragraph (a) shall not apply:
  - (i) In respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters), turkeys, guineas, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants and pea fowl;
  - (ii) To any importation for scientific or educational purposes;
  - (iii) To the importation of fully manufactured artificial flies used for fishing;
  - (iv) To the importation of birds which are classifiable under subheading 9804.00.55; and

## Additional U.S. Notes: (con.)

- (ii) For use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (*Chrysolophus amerstiae*), golden pheasant (*Chrysolophus pictus*), silver pheasant (*Lophura nycthemera*), Reeves pheasant (*Syrnaticus reevesii*), blue-eared pheasant (*Crossoptilon auritum*) and brown-eared pheasant (*Crossoptilon mantchuricum*) <sup>1/</sup>

For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin.

- (d) No article specified in paragraph (c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of paragraph (c) (including regulations providing for equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in paragraph (c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necessary to meet such threat):
  - (i) In the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or
  - (ii) In the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the elimination of such species from the import quota for pheasant, or any combination thereof.

The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota. <sup>2/</sup>

- (e) Any article of a kind the importation of which is prohibited or subjected to a quota by paragraphs (a), (b) and (c) above, and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State government, or any society or museum for exhibition or scientific or educational purposes, or (2) be destroyed.
- (f) Nothing in this note shall be construed to repeal the provision of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States. If on investigation by the district director of Customs before seizure, or before trial for forfeiture, or if at such trial if such seizure has been made, it shall be made to appear to the district director of Customs, or to the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquisition or purchase of such feathers is or has been made in violation of the provisions of the act of March 4, 1913, chapter 145 (37 Stat. 847), or the act of July 3, 1918 (40 Stat. 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the district director of Customs, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws.

<sup>1/</sup> Brown-eared pheasant added to the List of Endangered Foreign Fish and Wildlife, Appendix A of 50 CFR 17, Nov. 24, 1970, effective date Dec. 2, 1970 (35 F.R. 18319, 18321).

<sup>2/</sup> The Secretary of Interior repealed regulations which implemented the feather import quotas contained in the Tariff Classification Act of 1962, effective on or after November 16, 1993 (58 FR 60524-60525).

## CHAPTER 8

### EDIBLE FRUIT AND NUTS; PEEL OF CITRUS FRUIT OR MELONS

II  
8-1

#### Notes

1. This chapter does not cover inedible nuts or fruit.
2. Chilled fruit and nuts are to be classified in the same headings as the corresponding fresh fruit and nuts.
3. Dried fruit or dried nuts of this chapter may be partially rehydrated, or treated for the following purposes:
  - (a) For additional preservation or stabilization (for example, by moderate heat treatment, sulfuring, the addition of sorbic acid or potassium sorbate),
  - (b) To improve or maintain their appearance (for example, by the addition of vegetable oil or small quantities of glucose syrup), provided that they retain the character of dried fruits or dried nuts.
4. Heading 0812 applies to fruit and nuts which have been treated solely to ensure their provisional preservation during transport or storage prior to use (for example, by sulfur dioxide gas, in brine, in sulfur water or in other preservative solutions), provided they remain unsuitable for immediate consumption in that state.

#### Additional U.S. Note

1. No allowance shall be made for dirt or other impurities in nuts of any kind, shelled or not shelled.

#### Statistical Note

1. For a list of approved standards for "certified organic", see General Statistical Note 6.
2. For the purposes of statistical reporting numbers 0807.11.3020, 0807.11.3060, 0807.11.4020 and 0807.11.4060, "miniature type" watermelons (also marketed as mini, personal, personal-size or personal mini), refers to watermelons weighing at least 0.91 kg (2 pounds) but not over 3.18 kg (7 pounds).
3. For the purposes of statistical reporting numbers 0810.10.2020, 0810.10.2060, 0810.10.4020 and 0810.10.4060, strawberries "for processing" refers to strawberries that are conventionally and certified organically grown and then shipped loose (not placed into any other containers such as pints or plastic clamshells) in plastic flats not weighing more than 0.91 kg (2 pounds), excluding the weight of the plastic flats. These strawberries are sometimes called "cannery" "freezer" or "juice" strawberries. They are not sold for immediate consumption on the fresh market.

## CHAPTER 10

### CEREALS

II  
10-1

#### Notes

1. (a) The products specified in the headings of this chapter are to be classified in those headings only if grains are present, whether or not in the ear or on the stalk.  
  
(b) This chapter does not cover grains which have been hulled or otherwise worked. However, rice, husked, milled, polished, glazed, parboiled, or broken remains classified in heading 1006. Similarly, quinoa from which the pericarp has been wholly or partly removed in order to separate the saponin, but which has not undergone any other processes, remains classified in heading 1008.
2. Heading 1005 does not cover sweet corn (chapter 7).

#### Subheading Note

1. The term "durum wheat" means wheat of the *Triticum durum* species and the hybrids derived from the interspecific crossing of *Triticum durum* which have the same number (28) of chromosomes as that species.

#### Additional U.S. Note

1. In subheading 1005.10, the expression "seed" covers only seed corn or maize which is certified by a responsible officer or agency of a foreign government in accordance with the rules and regulations of that government to have been grown and approved especially for use as seed, in containers marked with the foreign government's official certified seed corn tags.

#### Statistical Note

1. For a list of approved standards for "Certified organic", see General Statistical Note 6.

  - (b) An ash content (after deduction of any added minerals) not exceeding that indicated in column (3).

Otherwise, they fall in heading 2302. However, germ of cereals, whole, rolled, flaked or ground is always classified in heading 1104.
- (B) Products falling within this chapter under the above provisions shall be classified in heading 1101 or 1102 if the percentage passing through a woven metal wire cloth sieve with the aperture indicated in column (4) or (5) is not less, by weight, than that shown against the cereal concerned.

Otherwise, they fall in heading 1103 or 1104.

IV-1

### Note

1. In this section the term "pellets" means products which have been agglomerated either directly by compression or by the addition of a binder in a proportion not exceeding 3 percent by weight.

### Additional U.S. Notes

1. In this section the term "canned" means preserved in airtight containers by heat processing to destroy or inactivate micro-organisms and enzymes that otherwise could cause spoilage.
2. For the purposes of this section, unless the context otherwise requires--
  - (a) the term "percent by dry weight" means the sugar content as a percentage of the total solids in the product;
  - (b) The term "capable of being further processed or mixed with similar or other ingredients" means that the imported product is in such condition or container as to be subject to any additional preparation, treatment or manufacture or to be blended or combined with any additional ingredient, including water or any other liquid, other than processing or mixing with other ingredients performed by the ultimate consumer prior to consumption of the product;
  - (c) the term "prepared for marketing to the ultimate consumer in the identical form and package in which imported" means that the product is imported in packaging of such sizes and labeling as to be readily identifiable as being intended for retail sale to the ultimate consumer without any alteration in the form of the product or its packaging; and

## CHAPTER 16

PREPARATIONS OF MEAT, OF FISH, OF CRUSTACEANS, MOLLUSCS OR OTHER AQUATIC INVERTEBRATES, OR OF INSECTS

IV  
16-1

### Notes

1. This chapter does not cover meat, meal offal, fish, crustaceans, molluscs or other aquatic invertebrates, as well as insects, prepared or preserved by the processes specified in chapter 2 or 3, note 6 to chapter 4 or in heading 0504.
2. Food preparations fall in this chapter provided that they contain more than 20 percent by weight of sausage, meat, meat offal, blood, insects, fish or crustaceans, molluscs or other aquatic invertebrates, or any combination thereof. In cases where the preparation contains two or more of the products mentioned above, it is classified in the heading of chapter 16 corresponding to the component or components which predominate by weight. These provisions do not apply to the stuffed products of heading 1902 or the preparations of heading 2103 or 2104.

### Subheading Notes

1. For the purposes of subheading 1602.10, the expression "homogenized preparations" means preparations of meat, meat offal, blood or insects, finely homogenized, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition, no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of meat, meat offal or insects. This subheading takes precedence over all other subheadings of heading 1602.
2. The fish, crustaceans, molluscs and other aquatic invertebrates specified in the subheadings of heading 1604 or 1605 under their common names only, are of the same species as those mentioned in chapter 3 under the same name.

### Additional U.S. Notes

1. For the purposes of this chapter, the term "in oil" means packed in oil or fat, or in added oil or fat and other substances, whether such oil or fat was introduced at the time of packing or prior thereto.
2. In assessing the duty on meats, no allowance shall be made for normal components thereof such as bones, fat, and hide or skin. The dutiable weight of meats in airtight containers subject to specific rates includes the entire contents of the containers.
3. For purposes of subheadings 1604.14.22 and 1604.14.30, tunas and skipjack from the freely associated states may be entered free of duty under the appropriate subheading in an aggregate quantity provided by, and under the terms set forth in, general note 10(c) to the tariff schedule. Goods from the freely associated states entered, or withdrawn from warehouse for consumption, in excess of such specified aggregate quantity shall be dutied under the appropriate subheading at the rate set forth in the "General" subcolumn of column 1.

### Statistical Note

1. Imports of shrimp or products of shrimp are subject to the provisions of section 609 of Public Law 101-162 of November 21, 1989 (16 U.S.C. 1537 note).

## CHAPTER 17

### SUGARS AND SUGAR CONFECTIONERY

IV  
17-1

#### Note

1. This chapter does not cover:
  - (a) Sugar confectionery containing cocoa (heading 1806);
  - (b) Chemically pure sugars (other than sucrose, lactose, maltose, glucose and fructose) or other products of heading 2940; or
  - (c) Medicaments or other products of chapter 30.

#### Subheading Notes

1. For the purposes of subheadings 1701.12, 1701.13 and 1701.14, "raw sugar" means sugar whose content of sucrose by weight, in the dry state, corresponds to a polarimeter reading of less than 99.5 degrees.
2. Subheading 1701.13 covers only cane sugar obtained without centrifugation, whose content of sucrose by weight, in the dry state, corresponds to a polarimeter reading of 69° or more but less than 93°. The product contains only natural anhydrous microcrystals, of irregular shape, not visible to the naked eye, which are surrounded by residues of molasses and other constituents of sugar cane.

#### Additional U.S. Notes

1. The term "degree" as used in the "Rates of Duty" columns of this chapter means sugar degree as determined by a polarimetric test.
2. For the purposes of this schedule, the term "articles containing over 65 percent by dry weight of sugar described in additional U.S. note 2 to chapter 17" means articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.
3. For the purposes of this schedule, the term "articles containing over 10 percent by dry weight of sugar described in additional U.S. note 3 to chapter 17" means articles containing over 10 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, except (a) articles not principally of crystalline structure or not in dry amorphous form, the foregoing that are prepared for marketing to the ultimate consumer in the identical form and package in which imported; (b) blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; (c) articles containing over 65 percent by dry weight of sugars derived from sugar cane or sugar beets, whether or not mixed with other ingredients, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported; or (d) cake decorations and similar products to be used in the same condition as imported without any further processing other than the direct application to individual pastries or confections, finely ground or masticated coconut meat or juice thereof mixed with those sugars, and sauces and preparations therefor.
4. For the purposes of this schedule, the term "blended syrups described in additional U.S. note 4 to chapter 17" means blended syrups containing sugars derived from sugar cane or sugar beets, capable of being further processed or mixed with similar or other ingredients, and not prepared for marketing to the ultimate consumer in the identical form and package in which imported.
5. (a) (i) The aggregate quantity of raw cane sugar entered, or withdrawn from warehouse for consumption, under subheading 1701.13.10 and 1701.14.10 during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 1,117,195 metric tons, as shall be established by the Secretary of Agriculture (hereinafter referred to as "the Secretary"), and the aggregate quantity of sugars, syrups and molasses entered, or withdrawn from warehouse for consumption, under subheadings 1701.12.10, 1701.91.10, 1701.99.10, 1702.90.10 and 2106.90.44 (under the terms of subheadings 9903.17.01 through 9903.18.10 and applicable note thereto), during any fiscal year, shall not exceed in the aggregate an amount (expressed in terms of raw value), not less than 22,000 metric tons, as shall be established by the Secretary. With either the aggregate quantity for raw cane sugar or the aggregate quantity for sugars, syrups and molasses other than raw cane sugar, the Secretary may reserve a quota quantity for the importation of specialty sugars as defined by the United States Trade Representative.

## Additional U.S. Notes (con.)

- (ii) Whenever the Secretary believes that domestic supplies of sugars may be inadequate to meet domestic demand at reasonable prices, the Secretary may modify any quantitative limitations which have previously been established under this note but may not reduce the total amounts below the amounts provided for in subdivision (i) hereof.
    - (iii) The Secretary shall inform the Secretary of the Treasury of any determination made under this note. Notice of such determinations shall be published in the Federal Register.
    - (iv) Sugar entering the United States during a quota period established under this note may be charged to the previous or subsequent quota period with the written approval of the Secretary.
  - (b)
    - (i) The quota amounts established under subdivision (a) may be allocated among supplying countries and areas by the United States Trade Representative.
    - (ii) The United States Trade Representative, after consultation with the Secretaries of State and Agriculture, may modify, suspend (for all or part of the quota amount), or reinstate the allocations provided for in this subdivision (including the addition or deletion of any country or area) if he finds that such action is appropriate to carry out the rights or obligations of the United States under any international agreement to which the United States is a party or is appropriate to promote the economic interests of the United States.
    - (iii) The United States Trade Representative shall inform the Secretary of the Treasury of any such action and shall publish notice thereof in the Federal Register. Such action shall not become effective until the day following the date of publication of such notice in the Federal Register or such later date as may be specified by the United States Trade Representative.
    - (iv) The United States Trade Representative may promulgate regulations appropriate to provide for the allocations authorized pursuant to this note. Such regulations may, among other things, provide for the issuance of certificates of eligibility to accompany any sugars, syrups or molasses (including any specialty sugars) imported from any country or area for which an allocation has been provided and for such minimum quota amounts as may be appropriate to provide reasonable access to the U.S. market for articles the product of those countries or areas having small allocations.
  - (c) For purposes of this note, the term raw value means the equivalent of such articles in terms of ordinary commercial raw sugar testing 96 degrees by the polariscope as determined in accordance with regulations or instructions issued by the Secretary of the Treasury. Such regulations or instructions may, among other things, provide: (i) for the entry of such articles pending a final determination of polarity; and (ii) that positive or negative adjustments for differences in preliminary and final raw values be made in the same or succeeding quota periods. The principal grades and types of sugar shall be translated into terms of raw value in the following manner--
    - (A) For articles described in subheadings, 1701.12.05, 1701.12.10, 1701.12.50, 1701.13.05, 1701.13.10, 1701.13.20, 1701.13.50, 1701.14.05, 1701.14.10, 1701.14.20, 1701.14.50, 1701.91.05, 1701.91.10, 1701.91.30, 1701.99.05, 1701.99.10, 1701.99.50, 2106.90.42, 2106.90.44 and 2106.90.46 by multiplying the number of kilograms thereof by the greater of 0.93, or 1.07 less 0.0175 for each degree of polarization under 100 degrees (and fractions of a degree in proportion).
    - (B) For articles described in subheadings 1702.90.05, 1702.90.10 and 1702.90.20, by multiplying the number of kilograms of the total sugars thereof (the sum of the sucrose and reducing or invert sugars) by 1.07.
    - (C) The Secretary of the Treasury shall establish methods for translating sugar into terms of raw value for any special grade or type of sugar, syrup, or molasses for which he/she determines that the raw value cannot be measured adequately under the above provisions.
6. Raw cane sugar classifiable in subheading 1701.13.20 and 1701.14.20 shall be entered only to be used for the production (other than by distillation) of polyhydric alcohols, except polyhydric alcohols for use as a substitute for sugar in human food consumption, or to be refined and reexported in refined form or in sugar-containing products, or to be substituted for domestically produced raw cane sugar that has been or will be exported. The Secretary of Agriculture may issue licenses for such entries and may promulgate such regulations (including any terms, conditions, certifications, bonds, civil penalties, or other limitations) as are appropriate to ensure that sugar entered under subheading 1701.13.20 and 1701.14.20 is used only for such purposes.
7. The aggregate quantity of articles containing over 65 percent by dry weight of sugars described in additional U.S. note 2 to chapter 17, entered under subheadings 1701.91.44, 1702.90.64, 1704.90.64, 1806.10.24, 1806.10.45, 1806.20.71, 1806.90.45, 1901.20.20, 1901.20.55, 1901.90.67, 2101.12.44, 2101.20.44, 2106.90.74 and 2106.90.92 during the 12-month period from October 1 in any year to the following September 30, inclusive, shall be none and no such articles shall be classifiable therein.

  - (d) Bakers' wares and other products of heading 1905; or
  - (e) Homogenized composite food preparations of heading 2104.
2. Headings 2007 and 2008 do not apply to fruit jellies, fruit pastes, sugar-coated almonds or the like in the form of sugar confectionery (heading 1704) or chocolate confectionery (heading 1806).
3. Heading 2001, 2004 and 2005 cover, as the case may be, only those products of chapter 7 or of heading 1105 or 1106 (other than flour, meal and powder of the products of chapter 8), which have been prepared or preserved by processes other than those referred to in note 1(a).
4. Tomato juice the dry weight content of which is 7 percent or more is to be classified in heading 2002.
5. For the purposes of heading 2007, the expression "obtained by cooking" means obtained by heat treatment at atmospheric pressure or under reduced pressure to increase the viscosity of a product through reduction of water content or other means.
6. For the purposes of heading 2009 the expression "juices, unfermented and not containing added spirit" means juices of an alcoholic strength by volume (see note 2 to chapter 22) not exceeding 0.5 percent vol.

#### Subheading Notes

1. For the purposes of subheading 2005.10, the expression "homogenized vegetables" means preparations of vegetables, finely homogenized, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of vegetables. Subheading 2005.10 takes precedence over all other subheadings of heading 2005.
2. For the purposes of subheading 2007.10, the expression "homogenized preparations" means preparations of fruit, finely homogenized, put up for retail sale as food suitable for infants or young children or for dietetic purposes, in containers of a net weight content not exceeding 250 g. For the application of this definition no account is to be taken of small quantities of any ingredients which may have been added to the preparation for seasoning, preservation or other purposes. These preparations may contain a small quantity of visible pieces of fruit. Subheading 2007.10 takes precedence over all other subheadings of heading 2007.
3. For the purposes of subheadings 2009.12, 2009.21, 2009.31, 2009.41, 2009.61 and 2009.71, the expression "Brix value" means the direct reading of degrees Brix obtained from a Brix hydrometer or of refractive index expressed in terms of percentage sucrose content obtained from a refractometer, at a temperature of 20 °C or corrected for 20 °C if the reading is made at a different temperature.

#### Additional U.S. Notes

1. For the purposes of heading 2009:
  - (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of natural unconcentrated fruit juice or liter of reconstituted fruit juice;

## Additional U.S. Notes (con.)

- (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and
- (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.
2. In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.
3. In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.
4. The aggregate quantity of olives entered under subheadings 0711.20.18 and 2005.70.06 in any calendar year shall not exceed 4,400 metric tons.
5. The aggregate quantity of peanut butter and paste entered under subheading 2008.11.05 in any calendar year shall not exceed the quantities specified in this note (articles the product of Mexico shall not be permitted or included under the aforementioned quantitative limitation and no such articles shall be classifiable therein).

#### Additional U.S. Notes

1. Subheadings 2106.90.48, 2106.90.52 and 2106.90.54 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in concentrated form. Such juices imported in non-concentrated form are classifiable in subheadings 2202.99.30, 2202.99.35, 2202.99.36 and 2202.99.37, as appropriate.
2. For the purposes of subheadings 2106.90.48, 2106.90.52 and 2106.90.54:
  - (a) The term "liter" in the "Rates of Duty" column of the provisions applicable to fruit juices means liter of reconstituted fruit juice;
  - (b) The term "reconstituted fruit juice" means the product which can be obtained by mixing the imported concentrate with water in such proportion that the product will have a Brix value equal to that found by the Secretary of the Treasury from time to time to be the average Brix value of like natural unconcentrated juice in the trade and commerce of the United States; and
  - (c) The term "Brix value" means the refractometric sucrose value of the juice, adjusted to compensate for the effect of any added sweetening materials, and thereafter corrected for acid.
  - (d) In determining the number of liters of reconstituted fruit juice which can be obtained from a concentrate, the degree of concentration shall be calculated on a volume basis to the nearest 0.5 degree, as determined by the ratio of the Brix value of the imported concentrated juice to that of the reconstituted juice, corrected for differences of specific gravity of the juices. Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice; and
  - (e) In determining the degree of concentration of mixed fruit juices, the mixture shall be considered as being wholly of the component juice having the lowest Brix value.

1. This chapter does not cover:
  - (a) Products of this chapter (other than those of heading 2209) prepared for culinary purposes and thereby rendered unsuitable for consumption as beverages (generally heading 2103)
  - (b) Sea water (heading 2501);
  - (c) Distilled or conductivity water or water of similar purity (heading 2853);
  - (d) Acetic acid of a concentration exceeding 10 percent by weight of acetic acid (heading 2915);
  - (e) Medicaments of heading 3003 or 3004; or
  - (f) Perfumery or toilet preparations (chapter 33).
2. For the purposes of this chapter and of chapters 20 and 21, the "alcoholic strength by volume" shall be determined at a temperature of 20°C.
3. For the purposes of heading 2202 the term "non-alcoholic beverages" means beverages of an alcoholic strength by volume not exceeding 0.5 percent vol. Alcoholic beverages are classified in headings 2203 to 2206 or heading 2208 as appropriate.

#### Subheading Note

1. For the purposes of subheading 2204.10 the expression "sparkling wine" means wine which, when kept at a temperature of 20°C in closed containers, has an excess pressure of not less than 3 bars.

#### Additional U.S. Notes

1. The duties prescribed on products covered by this chapter are in addition to the internal-revenue taxes imposed under existing law or any subsequent act. The duties imposed on products covered by this chapter which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes; except that, in the case of distilled spirits transferred to the bonded premises of a distilled spirits plant under the provisions of section 5232 of the Internal Revenue Code of 1954, the duties are imposed on the quantity withdrawn from customs custody.
2. Subheadings 2202.99.30, 2202.99.35, 2202.99.36 and 2202.99.37 cover vitamin or mineral fortified fruit or vegetable juices that are imported only in non-concentrated form. Such juices imported in concentrated form are classifiable in subheadings 2106.90.48, 2106.90.52 or 2106.90.54, as appropriate.
3. Dutiable quantities of alcoholic juices (including grape must) classified in heading 2204, 2206 or 2208 shall be calculated in accordance with additional U.S. notes 1, 2 and 3 in chapter 20.
4. The term "effervescent wine" means wine other than sparkling wine which contains in excess of 0.392 grams of carbon dioxide per 100 milliliters of wine.
5. Where in heading 2204, 2206, 2207 or 2208, the rates shown in the rates of duty columns are in terms of a proof liter, proof liter shall mean a liter of liquid at 15.56°C (60°F) which contains 50 percent (100 proof) by volume of ethyl alcohol having a specific gravity of 0.7939 at 15.56°C (60°F) referred to water at 15.56°C (60°F) as unity or the alcoholic equivalent thereof.
6. Where in heading 2204, 2206, 2207 or 2208, the rates of duty are assessed on a proof liter basis, the rates shown indicate the amount of duty which shall be collected on each liter of an imported product at 100 proof. The amount of duty which shall be collected for each liter of a product which is imported at more than or less than 100 proof shall bear the same ratio to the applicable rate of duty as the proof of the imported product bears to 100 proof.
7. The standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, at his discretion, may authorize the ascertainment of the proof of wines, cordials or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.

## Statistical Note

1. For the purposes of statistical reporting number 2403.99.2140, "snuff and snuff flours" means any finely cut, ground, or powdered tobacco that is not intended to be smoked. Any product which has been determined to be "snuff and snuff flours" in rulings by the Alcohol and Tobacco Tax and Trade Bureau, Department of the Treasury, should be reported under this provision.
