- (ii) if for the purposes of subparagraph (xiv) of subdivision (a) actual amounts cannot be provided, the person making the entry or withdrawal shall provide reasonable estimates of such information. The use of an estimate for statistical purposes does not relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions. For Customs purposes, estimates shall not be used in declaring the value of merchandise in accordance with section 402 of the Tariff Act of 1930, as amended by the Trade Agreements Act of 1979. Therefore, when the price of goods includes freight, insurance and other charges (e.g., the terms of sale are CIF), estimates of those charges reported pursuant to this note may not be deducted from the price to arrive at the value declared to the Customs Service. However, when the actual charges are known, they must be excluded to arrive at the declared value.
